Mission: To provide visionary leadership and superior municipal services that enhance the quality of life for citizens while creating a welcoming business atmosphere focused on sustainability and expansion of tourism and cultural events.

The meeting was called to order by Mayor Ford.

Invocation by Councilman Blount.

Pledge of Allegiance was recited by all in attendance.

City Clerk, Vanessa Holiday was asked to proceed with a verbal roll call. All members were present.

Councilman Blount motioned to adopt the Agenda: Second by Councilwoman Gantt. The motion passed 5-0.

REVIEW OF THE MINUTES – No Action

- 1 Draft Minutes June 13, 2022
- 2 Draft Work Session Minutes June 29, 2022

PUBLIC COMMENTS - All persons wishing to speak for public comment must sign in with the City Clerk prior to the beginning of the meeting noting your name, address, and phone number. You will be allotted three (3) minutes. Speakers must respect all members of the elected body, officials, and staff. Defamation, unruliness and/or swearing will not be tolerated.

Ms. Sunny Randazzo of 111 Bryant Street, Stockbridge, GA asked the city to please mitigate the noise that is coming from the Amphitheater.

Mr. Coren Randazzo of 111 Bryant Street, Stockbridge, GA echoed the sentiments of Ms. Randazzo; referenced a request from a Pastor to partner with the city's Youth Council for a concert and asked the city to do background checks before engaging in activities.

PRESENTATION

3. Proposed Amphitheater Splash Pad

Presented by: Brecca Carter, Community Development Director
Ms. Carter introduced Peyton Peterson of TSW who presented two options for the proposed Splash Pad with both totaling around \$1.3 million noting Option 1 includes enhanced landscaping, fencing along East Atlanta Road and Option 2 scales back on the landscaping, and the unisex restroom would be include in the same area of both designs.

Mayor Ford noted the green space is utilized for various of reasons by citizens and recommends not using the space for the Splash Pad, but rather installing benches to give people the option of sitting down.

Councilwoman Gantt expressed she likes the first concept and would prefer to move the Splash Pad across the street, closer to the downtown area for more foot traffic in the downtown.

Mayor Pro Tem Thomas noted his concerns with the maintenance of the Splash Pad and noted the fountains the city currently has are not properly working along with the fountain at the Amphitheater and would like to hear more about the maintenance of the Splash Pad.

Councilman Alexander noted the Splash Pad has been on the city's list of projects since 2016 and noted Council has not previously mentioned moving the splash pad to a different location and noted the Amphitheater is a major draw to the downtown area and referenced the STEM choosing to locate in downtown Stockbridge, and encouraged the Council to do something for the children of Stockbridge, and referenced the City of Sugar Hill who constructed their Splash Pad adjacent to their city hall.

Ms. Hubble noted the importance of having a destination place and connectivity.

Mayor Ford noted his opinion has changed due to the success of the Amphitheater and how people utilize the green space with different events such as movie on the lawn, and this location is no longer feasible.

Councilman Blount noted you must look at and consider the purpose and intent when bringing things to the city and noted the flaws with the current water features especially the pond at the Amphitheater and needs to figure out the problems before moving forward with the Splash Pad.

Mayor Pro Tem Thomas noted he is in favor of having a Splash Pad and would like to get it right before moving forward and not rush the project just to do it; noted while splash pads are popular, there are maintenance, costs and safety concerns that would need to be addressed; noted issues with the city's current water features such as the fountain, amphitheater pond and municipal park fountain which are all inoperable.

Councilwoman Gantt noted she is in favor of the Splash Pad but circumstances change and she would like to look at different locations and would also like to revisit the budget.

Councilwoman Barber noted was not a member of the Council when the project was proposed and does recall the presentation from TSW at one of city's retreats, noting she supports the Splash Pad project, but prefers a different location.

PUBLIC HEARING

4. City of Stockbridge 2023-2027 Short-Term Work Program and Capital Improvements Element (CIE).

Presented by: Brecca Carter, Community Development Director
Ms. Carter noted this an annual requirement through the Department of Community Affairs (DCA) and the Atlanta Regional Commission (ARC) which requires a list of projects for a 5-year period which addresses the different needs and pending projects to associate the responsible party in its jurisdiction and the costs associated; noted the Splash Pad has been on the list since 2015 along with new projects such as the electric vehicle station at the Amphitheater and the Downtown Pedestrian and Bicycle Connectivity Concept Study; noted it would be required to look at community facilities, economic development, and land use, and referenced some of the completed projects such as the updated Unified Development Codes (UDC), Sign Ordinance, Overlay District Designation, Amphitheater, and others.

Councilman Alexander congratulated Public Works for completing several projects and inquired about the monument sign and the electric vehicle station; and hopes the city's Grants Administrator is securing Infrastructure funding that has been approved by the federal government.

Mr. Gardiner noted a great deal of the ARPA funding went towards the Police Department and Public Works and the city would be seeking infrastructure and transportation funding as well.

Mrs. Carter noted staff will get with TSW to see about putting a monument sign together and would need to revisit the cost.

Ms. Hubble of TSW noted the design for the monument sign is completed and could be put up once the roads are widened.

Mrs. Carter noted having a contract with GA Power who would install the infrastructure at no cost, the city would be responsible for the chargers and wiring for around \$75,000.

Councilman Blount noted to add a way finding sign for the Amphitheater along East Atlanta rd. and mentioned there are not enough way findings signs around the city.

Mayor Pro Tem Thomas requested an in-depth report from the city's Grants Writer with updates and would also like to revisit the Rideshare pick-up and drop off area.

Mayor Ford recalled discussions to designate the courthouse parking lot for the Uber/Lyft drop off and pick-up area.

Councilwoman Barber noted most of the projects were prior to her tenure on the Council where she had no input, and prefers the city move forward with the Youth and Senior Center.

Public Hearing Opened
No Speakers in Favor No Speakers Opposed
Public Hearing Closed

Councilwoman Gantt motioned to approve 2023-2027 Short-Term Work Program and Capital Improvements Element (CIE): Second by Councilman Blount. The motion passed 5-0.

NEW BUSINESS

5. Council Consideration to approve a Memorandum of Understanding (MOU) with the Atlanta Regional Commission (ARC) for ARC to provide assistance for the development of the City's 5-year update of its Comprehensive Plan in accordance with the proposed Scope of Work.

Presented by: Brecca Carter, Community Development Director

Ms. Carter noted the 5-year update to the Comprehensive Plan is a long term 25–30-year plan in which the State requires every jurisdiction to update every 5 years to become current with trends and to see where planning and land use is moving; noted the Atlanta Regional Commission (ARC) has aided assist with the process at no cost and will include the public by holding three (3) public hearings once the MOU has been accepted along with the scope of work.

Councilwoman Gantt motioned to approve a Memorandum of Understanding (MOU) with the Atlanta Regional Commission (ARC) for ARC to provide assistance for the development of the City's 5-year update of its Comprehensive Plan in accordance with the proposed Scope of Work: Second by Councilwoman Barber. The motion passed 5-0.

6. Henry County-Cities Transportation & Trails Plan Adoption

Presented by: Brecca Carter, Community Development Director – Sam Baker, Henry County Transportation, Richard Fangman, Pond & Company

Ms. Carter noted the Henry County Transportation Department has worked with all four (4) cities with sidewalk, roadways, and trail projects and has decided to add the Trails Plan noting it is time to update the original trails plan approved in 2016.

Richard Fangman of Pond & Company gave an overview presentation and noted 41 projects have been completed and fully funded by SPLOST funds; noted there are two different types of trails, Greenway and Side Paths.

Mayor Ford inquired on the differences of Greenway and Side Paths.

Mr. Fangman stated greenway paths aligns with a creek or stream and side paths are a multi-use trail with wide sidewalks next to the roadways; noted the next steps are to finalize the draft transportation plan and trails plan document with comments from the county.

Councilwoman Gantt inquired on the prioritizations results list. Sam Baker of Henry County Transportation noted the list are not prioritized but rather placed with short-term, mid-term or long-term projects that spans over 30 years from 2022-2050 and based on when funding will be available.

Mr. Baker noted the Henry County government list is not prioritized and was broad and include projects by district and extends from 2022 – 2052 and is based on when funding becomes available noting both short-term and long-term projects; and noted the funding would be split between the county and cities.

Councilman Alexander inquired om the \$12 Million TSPLOST funds going towards the trails noting he had confirmed with the County Manager that there would be 10' multi-use trails along Rock Quarry Rd. and near Walmart and I-675,

Mayor Ford tasked the City Manager to reach out and follow up with the County regarding the \$12 million-dollar TSPLOST funding,

Councilman Blount motioned to approve Henry County-Cities Transportation & Trails Plan Adoption: Second by Councilwoman Barber. The motion passed 5-0.

7. Council consideration to approve Invitation to Bid (ITB) 2022-0013, City of Stockbridge LMIG (Local Maintenance Improvements Grant) 2023 Program for Roads and Resurfacing awarded to East Coast Grading, Inc. Funding Source: SPLOST V \$1,382,654.59 and GDOT (Georgia Department of Transportation) \$287,562.63 for a total amount of \$1,670,217.22.

Presented by: Decius Aaron, Public Works Director

Mr. Aaron noted the 2023 LMIG resurfacing list that consist of approximately 4.66 miles and would include: Summerhill subdivision, The Summit, Windsong, the Wingate Enclave, Brentwood, Bay Court, Appleton, Magnolias, Northridge Station, and Monarch Village; noted the city's goal is to resurface 5 miles per row per year with the city currently having 105 miles of roads within the city limits; noted the city has completed 48 miles of resurfacing with a goal of having all roads within the city limits resurfaced within 12 years and recommends approving with the chosen vendor East Coast Grading, Inc.

Councilman Blount motioned to approve invitation to Bid (ITB) 2022-0013, City of Stockbridge LMIG (Local Maintenance Improvements Grant) 2023 Program for Roads and Resurfacing awarded to East Coast Grading, Inc. Funding Source: SPLOST V \$1,382,654.59 and GDOT (Georgia Department of Transportation) \$287,562.63 for a total amount of \$1,670,217.22: Second by Councilwoman Gantt. The motion passed 4-0 (Mayor Pro Tem Thomas was not present for the vote).

ITEM/PROJECT/EVENT:

Consider an Annexation request (AX-2022-01) by S3 Capital Investments, LLC, represented by Battle Law, to annex property at 2125 Highway 42 North, with 20 +/- acres, into the City to allow for an independent living/age-restricted residential development. The existing Southern Crescent Rehabilitation and Retirement Center would remain, and 100 new independent living/age-restricted residential units would be constructed. The property would be combined with an adjacent parcel to the north, at Highway 42 North and Technology Parkway (in the City), where 176 units would be constructed.

BACKGROUND INFORMATION:

Proposed Development—Existing facility plus 276 new independent living, age-restricted, attached and detached residential units on two parcels, with 42.01 +/- acres.

Staff & Planning Commission Recommendation—Approval of AX-2022-01.

Companion Applications—1) CP-2022-02 to request a change in the land use designations of both parcels to 'High-Density Residential'; and 2) RZ-2022-02 to request the rezoning of both parcels to PUD.

PROJECT DESCRIPTION

Proposed Development -- Independent living / age-restricted residential development proposal, to include both parcels. Tract 1 would include the existing Southern Crescent Rehabilitation & Retirement Center, and the construction of 100 new independent living units, including 7 detached units and 93 attached units, with a density of 5 units per acre. Tract 2, which is currently vacant, would feature the construction of 176 independent living units, including 52 detached units and 124 attached units, with a density of 8 units per acre. The total development, including both parcels, would contain 276 independent living units, with a density of 6.6 units per acre.

Companion Applications -- To allow for the proposed development, the applicant has also applied for a Rezoning of the subject property via RZ-2022-02, from Henry County's 'MU' (Mixed Use) to the City's 'PUD' (Planned Unit Development); as well as a Comprehensive Plan Amendment via CP-2022-02, to change the property's land use designation from Henry County's 'MIX' (Mixed Use) to the City's 'High-Density Residential'. Further, the applicant would need to apply for a Recombination Plat to combine the two parcels.

Applicant's Conceptual Site Plan -- Shows that three accesses would be provided into the proposed development: 1) the existing driveway at 2125 Highway 42 North, which serves the existing Southern Crescent Rehabilitation & Retirement Center; 2) a new entrance off Highway 42 North, across from Glenmore Lane; and 3) the extension of Technology Parkway. A central street would connect the two tracts, crossing over the existing stream.

Amenities -- Each tract would have its own set of amenities. The subject property (Tract 1) would contain a clubhouse, a pool, and a cabana, while Tract 2 would contain pickleball courts, a pool, and a cabana. Tract 1 would contain two small detention ponds and Tract 2 would contain a larger detention pond.

Rendering -- The submitted rendering suggests that the proposed residential units would have pitched roofs, hardiplank veneers, and single-car garages.

BOUNDARY SURVEY

Subject Property:

2125 Highway 42 North Parcel #071-01034012

a.k.a. “Tract 1”

The Boundary Survey shows the presence of the existing Southern Crescent Rehabilitation & Retirement Center.

HENRY COUNTY ZONING MAP

The subject property (a.k.a. "Tract 1") is shown in the buff color on the map. It is zoned 'MU' (Mixed Use).

HENRY COUNTY LAND USE DESIGNATION MAP

From the Henry County Comprehensive Plan

The subject property (a.k.a. "Tract 1") is shown in the lavender color on the map below. It has a future land use designation of 'MIX' (Mixed Use). The other colors on the map show properties which are also located within unincorporated Henry County.

CONCEPTUAL SITE PLAN

The Conceptual Site Plan shows three proposed accesses into the site, a central street connecting the two tracts and crossing over a stream, amenities for each tract, and three detention ponds.

RENDERING

This rendering suggests the provision of pitched roofs, mostly hardiplank siding, and single-car garages.

ANALYSIS OF REQUEST -- PAGE ONE

- 1. Contiguous with the City --** The subject property is contiguous with Parcel #071-01034014 to the north, which would be combined with the subject property to form the overall proposed development.
- 2. Provision of Services --** Water and sewer services are provided by the Henry County Water Authority. Fire and EMS services are provided by Henry County. Electricity is provided by Georgia Power Company. Police services are provided by Henry County, but this would change to the City of Stockbridge.
- 3. Proposed Urban Development --** The applicant proposes to maintain the existing rehabilitation and rehabilitation facility, and to construct 100 “independent living” units on the subject property.
- 4. Consistency with the City’s Comprehensive Plan --** The subject property is located outside of the City. It has a Henry County land use designation of ‘MIX’ (Mixed-Use). The adjacent Tract 2 to the north, which would be combined with the subject property for the proposed development, has land use designations of ‘Low-Density Residential’ and ‘Light Industrial’. Although the applicant’s proposed Comprehensive Plan Amendment of the subject property to ‘High-Density Residential’ would not be compatible with these designations, the applicant also seeks to change the land use designations of Tract 2 to ‘High-Density Residential’.
- 5. Consistency with Adjoining City Zoning --** The proposed annexed property does not share a common zoning classification with the adjoining City property. However, the applicant seeks to rezone both properties to ‘PUD’ (Planned Unit Development).

ANALYSIS OF REQUEST, PAGE TWO

6. **Potential Positive Effects --** The developer would maintain the existing Southern Crescent Rehabilitation & Rehabilitation Center. Since many of the proposed residential units would be located to the rear of this facility or at the end of Technology Parkway, they may not be visible from Highway 42 North.
7. **Physical Site Suitability --** The subject property is already developed with the existing Southern Crescent Rehabilitation & Retirement Center. The Conceptual Site Plan shows the presence of a stream, which would be traversed by a proposed internal street. A large open space area would be designated along the stream, which should be preserved.
8. **Impact on Adjacent Property Owners --** To the south and west of the subject property lies The Magnolias at Eagles Landing Subdivision, which appears to be fully developed. The proposed residential units would be near the lots in that subdivision, but a significant buffer is shown on the site plan. It may be prudent for the developer to also install a fence along the perimeter of the property.
9. **Impacts on City Infrastructure --** A letter from the Henry County Water Authority, dated May 23, 2022, stated that water service, sewage treatment, and sewer line capacity are all available for the subject property. However, it further states that the proposed site plan would be “in conflict” with an existing 8-inch sewer line, and that the sewer would need to be relocated at the developer’s expense. In addition, an easement would be required to access the sewer line from Highway 42 North.
10. **Traffic and Transportation Impacts --** The developer should coordinate with Henry County DOT & Georgia DOT regarding possible intersection improvements at Highway 42 North and Technology Parkway. The City’s Fire Marshal approved the proposed new entrance off Highway 42 North and the internal site circulation. A deceleration should be added, though, at the new entrance.

ANALYSIS OF REQUEST – PAGE THREE

- 11. Environmental Impacts –** The developer would need to coordinate with City engineers and other environmental officials regarding a bridge crossing over the existing stream, as well as the protection of sensitive floodplain areas.

STAFF RECOMMENDATION

The proposed annexation is reasonable in view of the following:

- 1. The applicant's plans to include the subject parcel with the adjacent parcel for a proposed independent living/age-restricted development traversing both parcels;**
- 2. The surrounding land uses and conditions; and**
- 3. The satisfactory findings of the Analysis criteria above.**

The Community Development Staff therefore recommends the APPROVAL of AX-2022-01 for the annexation of the subject property at 2125 Highway 42 North into the Stockbridge City Limits.

SUBJECT: **Annexation Case #AX-2022-01** for Property at 2125 Highway 42 North within unincorporated Henry County

I. PURPOSE

Consider a petition to annex 22.01 +/- acres of land at **2125 HIGHWAY 42 NORTH** within unincorporated Henry County, located in Land Lot 31+ of District 7, and comprising Parcel #071-01034012. The application by S3 Capital Investments, LLC, is represented by Battle Law, P.C., as part of a development proposal to include Parcel #071-01034014 within the Stockbridge City Limits at Highway 42 North and Technology Parkway).

II. BACKGROUND

Proposed Development	Age-restricted residential development.
Site Address	2125 Highway 42 North, across from Summit View Drive.
Parcel Identification	Parcel #071-01034012.
Parcel Acreage	20.01 +/- acres.
Applicant	S3 Capital Investments, LLC.
Owner	Southern Crescent Rehabilitation & Retirement Community, Inc.
Current County Zoning	'MU' (Mixed-Use).
Current City Zoning	N/A
County Land Use Designation	'MIX' (Mixed-Use).
City Land Use Designation	N/A
Current Use	Southern Crescent Rehabilitation &

	Retirement Center.
Surrounding Land Uses	• <u>North</u>—Vacant land. • <u>South and West</u>—Magnolias @ Eagles Landing Subdivision. • <u>East</u>—Highlands at Eagles Landing Subdivision; Summit at Eagles Landing Subdivision; a Thai restaurant.

III. FINDINGS OF FACT

- The applicant had submitted a letter which requested the deferral of this application from the July 28, 2022, Planning Commission meeting and the August 8, 2022, City Council meeting. The Staff recommended the deferral of this case, and AX-2022-01 was subsequently deferred at both meetings.
- The applicant has also applied for a Comprehensive Plan Amendment (CP-2022-02) and a rezoning of the property (RZ-2022-02).
- The applicant seeks to combine the subject property with Parcel # 071-01034014 to the north, within the Stockbridge City Limits, for which a Recombination Plat application will be required.
- A small stream borders the subject property to the north. It appears to be a tributary of Wolfe Creek.

IV. PROJECT DESCRIPTION

The applicant requests the annexation of the subject property at 2125 Highway 42 North (Tract 1) as part of an independent living residential development proposal, which would include the adjacent property to the north. Tract 1 would include the existing Southern Crescent Rehabilitation & Retirement Center, as well as the construction of 100 new independent living units, including 7 detached units and 93 attached units, with a density of 5 units per acre. The adjacent parcel (Tract 2), which is currently vacant, would feature the construction of 176 independent living units, including 52 detached units and 124 attached units, with a density of 8 units per acre. The total development, including both parcels, would contain 276 independent living units, with a density of 6.6 units per acre.

To allow for the proposed development, the applicant has also applied for a rezoning of the subject property (from Henry County's 'MU' (Mixed Use) to the City's 'PUD' (Planned Unit Development), as well as a change in the property's land use designation (from Henry County's 'MIX' (Mixed Use) to the City's 'High-Density Residential'. Further, the applicant would need to apply for a Recombination Plat to combine the two parcels.

The applicant's submitted Conceptual Site Plan shows that three accesses would be provided into the proposed development. These include the existing driveway at 2125

Highway 42 North, which serves the existing Southern Crescent Rehabilitation & Retirement Center; a new entrance off Highway 42 North, across from Glenmore Lane; and the extension of Technology Parkway. A central street would connect the two tracts, crossing over the existing stream.

Each tract would have its own set of amenities. The subject property (Tract 1) would contain a clubhouse, a pool, and a cabana, while Tract 2 would contain pickleball courts, a pool, and a cabana. Tract 1 would contain two small detention ponds and Tract 2 would contain a larger detention pond.

The submitted rendering suggests that the proposed residential units would have pitched roofs, hardiplank veneers, and single-car garages.

The companion rezoning application states that the applicant will be submitting a proposed list of conditions for adoption, but such list has not yet been received by Community Development.

The subject property (a.k.a. "Tract 1") is shown in the lavender color on the map below. It has a future land use designation of 'MIX' (Mixed Use). The other colors on the map show properties which are also located within unincorporated Henry County.

CONCEPTUAL SITE PLAN

The Conceptual Site Plan shows three proposed accesses into the site, a central street

connecting the two tracts and crossing over a stream, amenities for each tract, and three detention ponds.

G. RENDERING

This rendering suggests the provision of pitched roofs, mostly hardiplank siding, and single-car garages.

V. ANALYSIS OF REQUEST

The applicant requests a **petition for annexation** under the City of Stockbridge Unified Development Code, Section 9.8. The Planning Commission and the City Council shall consider the following standards in considering any proposal that would result in a change to the text or map of this UDC, giving due weight or priority to those factors that are

appropriate to the circumstances of each proposal.

- 1. *Is the subject property contiguous to the existing corporate limits with at least one-eighth of the aggregate external boundaries coinciding? Contiguous means-- abuts the municipal limits, or is separated by a street, river or railroad-type of right-of-way, or city land, or land owned by some other political subdivision, or lands, or lands owned by the state.***

Yes. The subject property is contiguous with Parcel #071-01034014 to the north, which would be combined with the subject property to form the overall proposed development.

- 2. *Describe what method (100%, 60% or Referendum and Resolution) the applicant is utilizing for the proposed annexation.***

The 100% Method would be used.

- 3. *Is any part of the subject property being proposed for annexation [located] within the boundary of another municipal corporation or county?***

Yes. It is located within Henry County.

- 4. *Is any part of the subject property receiving municipal services from any entity other than the city proposing annexation?***

Yes. Water and sewer services are provided by the Henry County Water Authority. Fire and EMS services are provided by Henry County. Electricity is provided by Georgia Power Company. Police services are provided by Henry County.

- 5. *Is the subject property for the proposed annexation being developed for urban purposes-- defined as a minimum of two people per acre?***

Yes. The applicant proposes to maintain the existing rehabilitation and rehabilitation facility, and to construct 100 "independent living" units on the subject property.

- 6. *Is the proposed annexation consistent with the Comprehensive Plan?***

No. The subject property has a Henry County land use designation of 'MIX' (Mixed-Use). The adjacent Tract 2 to the north, which would be combined with the subject property for the proposed development, has a dual land use designation of 'Low-Density Residential' and 'Light Industrial'. Although the applicant's proposed Comprehensive Plan Amendment of the subject property to 'High-Density Residential' would not be compatible with these designations, the applicant also seeks to change the land use designations of Tract 2 to 'High-Density Residential'.

- 7. *Does the proposed annexed property share a common zoning classification***

with the adjoining City property as described in Section 9.8 of the Unified Development Code?

No. However, the applicant seeks to rezone both properties to 'PUD' (Planned Unit Development).

8. *Potential positive effects of the proposed annexation on the character of the proposed zoning district, a particular piece of property, neighborhood, a particular area, or community.*

As part of the proposed development, the developer would maintain the existing Southern Crescent Rehabilitation & Rehabilitation Center. Since many of the proposed residential units would be located to the rear of this facility or at the end of Technology Parkway, they may not be visible from Highway 42 North.

9. *The physical conditions of the site relative to its capability to be developed as requested, including topography, drainage, access, and size and shape of the property.*

The subject property is already developed with the existing Southern Crescent Rehabilitation & Retirement Center. The Conceptual Site Plan shows the presence of a stream, which would be traversed by a proposed internal street. A large open space area would be designated along the stream, which should be preserved.

10. *The impact upon adjacent property owners should the request be granted.*

To the south and west of the subject property lies The Magnolias at Eagles Landing Subdivision, which appears to be fully developed. The proposed residential units would be near the lots in that subdivision, but a significant buffer is shown on the site plan. It may be prudent for the developer to also install a fence along the perimeter of the property.

11. *The potential impact of the annexation on City infrastructure including water and sewage system.*

A letter from the Henry County Water Authority, dated May 23, 2022, stated that water service, sewage treatment, and sewer line capacity are all available for the subject property. However, it further states that the proposed site plan would be "in conflict" with an existing 8-inch sewer line, and that the sewer would need to be relocated at the developer's expense. In addition, an easement would be required to access the sewer line from Highway 42 North.

12. *The impact of the proposed annexation on adjacent thoroughfares and pedestrian and vehicular circulation and traffic volumes.*

The City's Fire Marshal reviewed the Conceptual Site Plan. He was pleased that an additional access would be provided off Highway 42 North, and he did not identify any

issues with the proposed internal traffic circulation.

Regarding the new access to be provided from Highway 42 North across from Glenmore Lane, it is recommended that a deceleration lane be added.

Traffic from the residential units to be constructed at the end of Technology Parkway would use the same intersection on Highway 42 North as traffic from the Highlands at Eagles Landing Subdivision to the east. The developer should coordinate with Georgia DOT officials to determine whether any intersection improvements would be needed.

Summary of Impacts / Concerns

Code Compliance	Property's zoning and land use designation are not compatible, but applicant has requested a rezoning and Comprehensive Plan amendment.
Police Department	To be served by Stockbridge Police Department.
Fire Marshal	Acceptable access and internal circulation.
Water and Sewer	Available water service, sewage treatment, and sewer line capacity, but developer would need to relocate the existing sewer line and obtain an easement.
Building	N/A
Traffic	Would bring additional traffic to the intersection of Highway 42 North / Technology Parkway / Inverness Avenue.
Environmental Conditions	Developer would need to coordinate with City engineers and other environmental officials regarding a bridge crossing over the stream, and the protection of sensitive floodplain areas.

VI. STAFF RECOMMENDATION

The proposed annexation is reasonable in view of 1) the applicant's plans to include the subject parcel with the adjacent parcel for a proposed independent living/age-restricted development traversing both parcels; 2) the surrounding land uses and conditions; and 3) the satisfactory findings of the twelve (12) Analysis criteria above. The Community Development Staff therefore recommends the **APPROVAL** of AX-2022-01 for the annexation of the subject property at 2125 Highway 42 North into the Stockbridge City Limits.

S3 Capital Investments, LLC. (the “Applicant”) is seeking to annex and rezone property in Henry County located at 2125 Highway 42 North, McDonough, GA. 30253. This property is approved for a mixture of 100 attached and detached age-restricted single-family homes to serve as housing for the patients of Southern Crescent Traumatic Brain Injury Center and bears the parcel number

**NOTICE OF CONSTITUTIONAL ALLEGATIONS AND PRESERVATION OF
CONSTITUTIONAL RIGHTS**

The portions of the Stockbridge Zoning Ordinance, facially and as applied to the Subject Property, which restrict or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the Stockbridge Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in violation of the due process and equal protection rights guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal by the Stockbridge City Council to amend the annex the Subject Property to the classification as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious and unreasonable manner between the Applicant and owners of similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any rezoning and conditional use permit of the Property subject to conditions which are different from the conditions requested by the Applicant, to the extent such different conditions would have the effect of further restricting Applicant's utilization of the property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Subject Property to an unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth hereinabove.

A refusal to allow the annexation, land use amendment and/or Rezoning and Conditional Use Permit in questions would be unjustified from a fact-based standpoint and instead would result only from

constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution.

A refusal to allow the annexation, land use amendment and/or Rezoning and Conditional Use Permit in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A. Section 36-66/1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted.

The existing land use designation and/or zoning classification on the Subject Property is unconstitutional as it applies to the Subject Property. This notice is being given to comply with the provisions of O.C.G.A. Section 36-11-1 to afford the County an opportunity to revise the Property to a constitutional classification. If action is not taken by the County to rectify this unconstitutional land use designation and/or zoning classification within a reasonable time, the Applicant is hereby placing the County on notice that it may elect to file a claim in the Superior Court of Fulton County demanding just and adequate compensation under Georgia law for the taking of the Subject Property, diminution of value of the Subject Property, attorney's fees and other damages arising out of the unlawful deprivation of the Applicant's property rights.

ITEM/PROJECT/EVENT:

Consider a Comprehensive Plan Amendment request (CP-2022-02) by S3 Capital Investments, LLC, represented by Battle Law, P.C., to change the future land use designations of two parcels to 'High-Density Residential' to allow for an independent living/age-restricted residential development. Tract 1, located at 2125 Highway 42 North (outside the City; to be annexed) has existing Henry County land use designation of 'Mixed-Use'. Tract 2, located at Highway 42 North and Technology Parkway (in the City) has existing land use designations of 'Light Industrial' and 'Low-Density Vertical Mixed-Use'.

BACKGROUND INFORMATION:

Proposed Development—Existing Southern Crescent Rehabilitation and Retirement Center plus 276 new independent living, age-restricted, attached and detached residential units on 42.01 +/- total acres.

Staff & Planning Commission Recommendation—Approval of CP-2022-02.

Companion Applications—1) AX-2022-01 to request the annexation of Tract 1 (with 20 +/- acres) into the City; and 2) RZ-2022-02 to request the rezoning of both parcels to 'PUD'.

PURPOSE

Applicant's Request -- Consider a Comprehensive Plan Amendment application by S3 Capital Investments, LLC, represented by Battle Law, P.C., to change the future land use designations of two parcels, from 'Light Industrial', 'Low-Density Vertical Mixed-Use', and 'Mixed-Use' to 'High-Density Residential,' to allow for an independent living/age-restricted residential development. The parcels and the requested land use designation changes are listed below. The applicant has also applied for an annexation (AX-2022-01) of Parcel #071-01034012 in unincorporated Henry County and a rezoning of both parcels (RZ-2022-02).

- ~ **Tract 1 -- Parcel #071-01034012.** Located at 2125 Highway 42 North in unincorporated Henry County, across from Summit View Drive. Applicant proposes to change the current Henry County land use designation of 'Mixed-Use' to the City of Stockbridge's land use designation of 'High-Density Residential' when the parcel is annexed into the Stockbridge City Limits via the applicant's companion annexation application, AX-2022-01. Contains 20.00 +/- acres. Located in Land Lot 31 of District 7.
- ~ **Tract 2 -- Parcel #071-01034014.** Located within the Stockbridge City Limits, with frontage on Highway 42 North and situated at the end of Technology Parkway. Applicant proposes to change the current land use designation from 'Light Industrial' and 'Low-Density Vertical Mixed-Use' to 'High-Density Residential'. Contains 22.01 +/- acres. Located in Land Lot 31 of District 7.

BACKGROUND INFORMATION

CATEGORY	FINDINGS
Proposed Development	Independent living / age-restricted residential development.
Site Address	1225 Highway 42 North, across from Summit View Drive; and Highway 42 North at Technology Parkway.
Parcel Identification	Includes two parcels: 1) Parcel #071-01034012 with 20.00 acres in unincorporated Henry County; and 2) Parcel #071-01034014 with 22.01 acres in the City of Stockbridge.
Parcel Acreage	42.01 +/- total acres within two parcels.
Applicant	S3 Capital Investments, LLC.
Owner	Southern Crescent Rehabilitation & Retirement Community, Inc.
Current County Zoning	'MU' (Mixed-Use).
Current City Zoning	'LI' (Light Industrial) and 'OI' (Office-Institutional)
County Land Use Designation	'MIX' (Mixed-Use).
City Land Use Designation	'Light Industrial' and Low-Density Vertical Mixed Use'
Current Use	The Southern Crescent Rehabilitation & Retirement Center is located on Parcel #071-01034012 at 2125 Highway 42 North.
Surrounding Land Uses	~ <u>North</u>—Industrial warehouses; church. ~ <u>South and West</u>—Magnolias at Eagles Landing Subdivision. ~ <u>East</u>—Industrial warehouse; Highlands at Eagles Landing Subdivision; Summit at Eagles Landing Subdivision; a Thai restaurant.

ADDITIONAL FINDINGS OF FACT

- 1. Recombination of Parcels Needed --** If the proposed Annexation (AX-2022-01) approved, and the applicant wishes to proceed with the proposed development, then the applicant would need to combine both parcels for both the requested Comprehensive Plan Amendment (CP-2022-02) and the requested rezoning (RZ-2022-02) to be approved. To facilitate this, a Recombination Plat application would be required, and it could be handled administratively.

- 2. Presence of Stream --** A small stream borders the subject property to the north. It appears to be a tributary of Wolfe Creek.

PROJECT DESCRIPTION

Proposed Development -- Independent living / age-restricted residential development proposal, to include both parcels. Tract 1 would include the existing Southern Crescent Rehabilitation & Retirement Center, and the construction of 100 new independent living units, including 7 detached units and 93 attached units, with a density of 5 units per acre. Tract 2, which is currently vacant, would feature the construction of 176 independent living units, including 52 detached units and 124 attached units, with a density of 8 units per acre. The total development, including both parcels, would contain 276 independent living units, with a density of 6.6 units per acre.

Companion Applications -- To allow for the proposed development, the applicant has also applied for a rezoning of the subject property by requesting that Tract 1 be rezoned from Henry County's 'MU' (Mixed Use) district to the City's 'PUD' (Planned Unit Development) district, and that Tract 2 be rezoned from 'OI' (Office-Institutional) and 'LI' (Light Industrial) to PUD. Tract 2 is also located within the Parkway Mixed-Use Overlay District. Further, the applicant would need to apply for a Recombination Plat to combine the two parcels.

Applicant's Conceptual Site Plan -- Shows that three accesses would be provided into the proposed development: 1) the existing driveway at 2125 Highway 42 North, which serves the existing Southern Crescent Rehabilitation & Retirement Center; 2) a new entrance off Highway 42 North, across from Glenmore Lane; and 3) the extension of Technology Parkway. A central street would connect the two tracts, crossing over the existing stream.

Amenities -- Each tract would have its own set of amenities. The subject property (Tract 1) would contain a clubhouse, a pool, and a cabana, while Tract 2 would contain pickleball courts, a pool, and a cabana. Tract 1 would contain two small detention ponds and Tract 2 would contain a larger detention pond.

Rendering -- The submitted rendering suggests that the proposed residential units would have pitched roofs, hardiplank veneers, and single-car garages.

HENRY COUNTY LAND USE DESIGNATION MAP

From the Henry County Comprehensive Plan

The subject property (a.k.a. "Tract 1") is shown in the lavender color on the map below. It has a future land use designation of 'MIX' (Mixed Use). The other colors on the map show properties which are also located within unincorporated Henry County.

CONCEPTUAL SITE PLAN

The Conceptual Site Plan shows three proposed accesses into the site, a central street connecting the two tracts and crossing over a stream, amenities for each tract, and three detention ponds.

RENDERING

This rendering suggests the provision of pitched roofs, mostly hardiplank siding, and single-car garages.

ANALYSIS OF REQUEST, PAGE ONE

A. Consistency with the Comprehensive Plan. The proposed development is not consistent with the Comprehensive Plan's land use designations for the subject property. The requested Comprehensive Plan Amendment for the proposed land use designation changes is necessary because the current land use designations do not allow the type of development which the applicant is proposing, or they do not allow the proposed residential densities. The applicant therefore proposes to change the future land use designations of the two parcels as follows:

~ **Tract 1**—From Henry County's land use designation of 'Mixed-Use' to the City of Stockbridge's land use designation of 'High-Density Residential', which would be more appropriate for the applicant's proposed type of development and would indicate the approximate density of the project.

~ **Tract 2**—From the City's land use designations of 'Light Industrial' and 'Low-Density Vertical Mixed-Use' to 'High-Density Residential'. The existing 'Light Industrial' land use designation does not allow residential uses, and the existing 'Low-Density Vertical Mixed-Use' land use designation is intended for buildings which contain commercial uses on the ground floor and residential uses on the upper floors.

B. Relation to the Zoning of the Property. The property's requested zoning districts are not permitted within the property's existing land use designations. To allow for the proposed development, the applicant has therefore requested the rezoning of the subject property (via RZ-2022-02) as follows:

~ **Tract 1**—From Henry County's zoning district of 'MU' (Mixed-Use) to the City of Stockbridge's zoning district of 'PUD' (Planned Unit Development). Although Henry County's MU district is believed to be like the City's PUD district, if Tract 1 is annexed into the City, it would need to be assigned a City zoning district.

~ **Tract 2**—From the City of Stockbridge's zoning districts of 'OI' (Office-Institutional) and 'LI' (Light Industrial) to 'PUD' (Planned Unit Development). The OI and LI districts do not allow residential uses.

But there is no need to change the property's land use designations unless the property is rezoned per the above specifications. Therefore, any approval of the requested Comprehensive Plan Amendment via CP-2022-02 must be contingent upon the simultaneous approval of the requested rezoning of the property via RZ-2022-02.

ANALYSIS OF REQUEST, PAGE TWO

- C. Suitability of the Site's Location.** The proposed 'High-Density Residential' land use designation would be compatible with the 'High-Density Residential' land use designation of the Magnolias at Eagles Landing Subdivision to the south.
- D. Maintaining the Current Land Use Designation.** Tract 1 is already partially developed with the existing Southern Crescent Rehabilitation and Retirement Center, but for this parcel to be annexed into the City, per AX-2022-01, it would need to have a City land use designation assigned to it. For Tract 2, additional industrial uses could be developed on the northwestern portion of the parcel due to its proximity to other existing industrial uses, the remainder of this parcel is unlikely to be developed with vertical mixed-use buildings under the existing 'Low-Density Vertical Mixed-Use' designation due to the parcel's size, odd shape, and proximity to the existing industrial uses. The proposed 'High-Density Residential' land use designation, with its higher density, would be more appropriate for this location.

STAFF RECOMMENDATION

This Staff Report has demonstrated that the requested Comprehensive Plan Amendment, via CP-2022-02, would be necessary and desirable for the subject property in conjunction with the requested rezoning of the property, via RZ-2022-02, to allow for the proposed independent living/age-restricted residential development. The Planning and Zoning Staff recommends **CONDITIONAL APPROVAL** of the requested Comprehensive Plan Amendment based upon:

1. **Recombination Approval --** The two parcels shall be officially combined via an administrative recombination plat application, after the applicant has submitted proof to the Community Development Department that an acceptable new plat has been recorded by the Henry County Superior Court / Real Estate Records Division.

SUBJECT: **Comprehensive Plan Amendment Case #CP-2022-02** for Two Parcels:
1) Property at 2125 Highway 42 North within unincorporated Henry County; and 2) Property at Highway 42 North and Technology Parkway in the City of Stockbridge.

I. PURPOSE

Consider a Comprehensive Plan Amendment application by S3 Capital Investments, LLC, represented by Battle Law, P.C., to change the future land use designations of two parcels, from 'Light Industrial', 'Low-Density Vertical Mixed-Use', and 'Mixed-Use' to 'High-Density Residential,' to allow for an independent living/age-restricted residential development. The parcels and the requested land use designation changes are listed below. The applicant has also applied for an annexation (AX-2022-01) of Parcel #071-01034012 in unincorporated Henry County and a rezoning of both parcels (RZ-2022-02).

- Parcel #071-01034012 – Represents Tract 1. Located at 2125 Highway 42 North in unincorporated Henry County, across from Summit View Drive. Applicant proposes to change the current Henry County land use designation of 'Mixed-Use' to the City of Stockbridge's land use designation of 'High-Density Residential' when the parcel is annexed into the Stockbridge City Limits via the applicant's companion annexation application, AX-2022-01. Contains 20.00 +/- acres. Located in Land Lot 31 of District 7.
- Parcel #071-01034014—Represents Tract 2. Located within the Stockbridge City Limits, with frontage on Highway 42 North and situated at the end of Technology Parkway. Applicant proposes to change the current land use designation from 'Light Industrial' and 'Low-Density Vertical Mixed-Use' to 'High-Density Residential'. Contains 22.01 +/- acres. Located in Land Lot 31 of District 7.

II. BACKGROUND

Proposed Development	Independent living /age-restricted residential development.
Site Address	2125 Highway 42 North, across from Summit View Drive; and Highway 42 North at Technology Parkway.
Parcel Identification	Subject property includes two parcels: 1) Parcel #071-01034012 with 20.00 acres in unincorporated Henry County; and 2) Parcel # 071-01034014 with 22.01 in the City of Stockbridge.
Parcel Acreage	42.01 +/- total acres within two parcels.
Applicant	S3 Capital Investments, LLC.
Owner	Southern Crescent Rehabilitation & Retirement Community, Inc.
Current County Zoning	'MU' (Mixed-Use).
Current City Zoning	'LI' (Light Industrial) and 'OI' (Office-Institutional)
County Land Use Designation	'MIX' (Mixed-Use).
City Land Use Designation	'Light Industrial' and Low-Density Vertical Mixed Use'
Current Use	The Southern Crescent Rehabilitation & Retirement Center is located on Parcel #071-01034012 at 2125 Highway 42 North.
Surrounding Land Uses	• <u>North</u>—Industrial warehouses; church. • <u>South and West</u>—Magnolias at Eagles Landing Subdivision. • <u>East</u>—Industrial warehouse; Highlands at Eagles Landing Subdivision; Summit at Eagles Landing Subdivision; a Thai restaurant.

III. FINDINGS OF FACT

- If the proposed Annexation (AX-2022-01) is approved, and the applicant wishes to proceed with the proposed development, then the applicant would need to combine both parcels for both the requested Comprehensive Plan Amendment (CP-2022-02) and the requested rezoning (RZ-2022-02) to be approved. To facilitate this, a

Recombination Plat application would be required, and it could be handled administratively.

- A small stream borders the subject property to the north. It appears to be a tributary of Wolfe Creek.

IV. PROJECT DESCRIPTION

The applicant requests a Comprehensive Plan Amendment to change the land use designations of both parcels to allow for an independent living / age-restricted residential development proposal, which would include both parcels. Tract 1 would include the existing Southern Crescent Rehabilitation & Retirement Center, as well as the construction of 100 new independent living units, including 7 detached units and 93 attached units, with a density of 5 units per acre. Tract 2, which is currently vacant, would feature the construction of 176 independent living units, including 52 detached units and 124 attached units, with a density of 8 units per acre. The total development, including both parcels, would contain 276 independent living units, with a density of 6.6 units per acre.

To allow for the proposed development, the applicant has also applied for a rezoning of the subject property by requesting that Tract 1 be rezoned from Henry County's 'MU' (Mixed Use) district to the City's 'PUD' (Planned Unit Development) district, and that Tract 2 be rezoned from 'OI' (Office-Institutional) and 'LI' (Light Industrial) to PUD. Tract 2 is also located within the Parkway Mixed-Use Overlay District. Further, the applicant would need to apply for a Recombination Plat to combine the two parcels.

The applicant's submitted a Conceptual Site Plan shows that three accesses would be provided into the proposed development. These include the existing driveway at 2125 Highway 42 North, which serves the existing Southern Crescent Rehabilitation & Retirement Center; a new entrance off Highway 42 North, across from Glenmore Lane; and the extension of Technology Parkway. A central street would connect the two tracts, crossing over the existing stream.

Each tract would have its own set of amenities. The subject property (Tract 1) would contain a clubhouse, a pool, and a cabana, while Tract 2 would contain pickleball courts, a pool, and a cabana. Tract 1 would contain two small detention ponds and Tract 2 would contain a larger detention pond.

The submitted rendering suggests that the proposed residential units would have pitched roofs, hardiplank veneers, and single-car garages.

The companion rezoning application states that the applicant will be submitting a proposed list of conditions for adoption, but such list has not yet been received by Community Development.

E. HENRY COUNTY LAND USE DESIGNATION MAP

From the Henry County Comprehensive Plan

The subject property (a.k.a. "Tract 1") is shown in the lavender color on the map below. It has a future land use designation of 'MIX' (Mixed Use). The other colors on the map show properties which are also located within unincorporated Henry County.

F. CONCEPTUAL SITE PLAN

The Conceptual Site Plan shows three proposed accesses into the site, a central street connecting the two tracts and crossing over a stream, amenities for each tract, and three detention ponds.

G. RENDERING

This rendering suggests the provision of pitched roofs, mostly hardiplank siding, and single-car garages.

V. ANALYSIS OF REQUEST

A. Consistency with the Comprehensive Plan.

The proposed development is not consistent with the Comprehensive Plan's land use designations for the subject property. The requested Comprehensive Plan Amendment for the proposed land use designation changes is necessary because the current land use designations do not allow the type of development which the applicant is proposing, or they do not allow the proposed residential densities. The applicant therefore proposes to change the future land use designations of the two parcels as follows:

- Tract 1--From Henry County's land use designation of 'Mixed-Use' to the City of Stockbridge's land use designation of 'High-Density Residential', which would be more appropriate for the applicant's proposed type of development and would indicate the approximate density of the project.
- Tract 2—From the City's land use designations of 'Light Industrial' and 'Low-Density Vertical Mixed-Use' to 'High-Density Residential'. The existing 'Light Industrial' land use designation does not allow residential uses, and the existing 'Low-Density Vertical Mixed-Use' land use designation is intended for buildings which contain commercial uses on the ground floor and residential uses on the upper floors.

B. Relation to the Zoning of the Property. The property's requested zoning districts are not permitted within the property's existing land use designations. To allow for the proposed development, the applicant has therefore requested the rezoning of the subject property (via RZ-2022-02) as follows:

- Tract 1—From Henry County's zoning district of 'MU' (Mixed-Use) to the City of Stockbridge's zoning district of 'PUD' (Planned Unit Development). Although Henry County's MU district is believed to be like the City's PUD district, if Tract 1 is annexed into the City, it would need to be assigned a City zoning district.
- Tract 2—From the City of Stockbridge's zoning districts of 'OI' (Office-Institutional) and 'LI' (Light Industrial) to 'PUD' (Planned Unit Development). The OI and LI districts do not allow residential uses.

But there is no need to change the property's land use designations unless the property is rezoned per the above specifications. Therefore, any approval of the requested Comprehensive Plan Amendment via CP-2022-02 must be contingent upon the simultaneous approval of the requested rezoning of the property via RZ-2022-02.

C. Suitability of the Site's Location. The proposed 'High-Density Residential' land use designation would be compatible with the 'High-Density Residential' land use designation of the Magnolias at Eagles Land Subdivision to the south.

D. Maintaining the Current Land Use Designation. Tract 1 is already partially developed with the existing Southern Crescent Rehabilitation and Retirement Center, but for this parcel to be annexed into the City, per AX-2022-01, it would need to have a City land use designation assigned to it. For Tract 2, additional industrial uses could be developed on the northwestern portion of the parcel due to its proximity to other existing industrial uses, the remainder of this parcel is unlikely to be developed with vertical mixed-use buildings under the existing 'Low-Density Vertical Mixed-Use' designation due to the parcel's size, odd shape, and proximity to the existing industrial uses. The proposed 'High-Density Residential' land use designation, with its higher density, would be more appropriate for this location.

STAFF RECOMMENDATION

This Staff Report has demonstrated that the requested Comprehensive Plan Amendment, via CP-2022-02, would be necessary and desirable for the subject property in conjunction with the requested rezoning of the property, via RZ-2022-02, to allow for the proposed independent living/age-restricted residential development. The Planning and Zoning Staff recommends **CONDITIONAL APPROVAL** of the requested Comprehensive Plan Amendment based upon:

1. **Recombination Approval --** The two parcels shall be officially combined via an administrative recombination plat application, after the applicant has submitted proof to the Community Development Department that an acceptable new plat has been recorded by the Henry County Superior Court / Real Estate Records Division.

I. LETTER OF INTENT

S3 Capital Investments, LLC (the “Applicant”) is requesting annexation into the Incorporated City of Stockbridge for the rezoning of 19.995 acres of land, which is further described as parcel 071-01034012. The subject property is currently developed under the unincorporated Henry County Office and Institutional and Mixed-Use zoning districts. The applicant is requesting to be rezoned from OI, LI and MU to PUD a companion Future Land Use Map Amendment request to change the land use designation from Light Industrial, Low-Density Vertical Mixed Use, and Mixed-Use to High Density Residential.

The subject property will be adjacent to the Southern Crescent Rehabilitation Center, which is zoned Mixed Use. S3 Capital Investments’ proposal includes 52 detached housing units and 124 attached units for an age-restricted independent living community. The applicant is requesting the petition of zoning and other applicable zoning actions to obtain approval and acceptance of the annexation of both parcels of land which will include a total of 276 total units, which 100 of the units will be provided as part of the South Crescent tract that is designated for assisted living, nursing and rehabilitation.

The applicant currently has a list of conditions for the proposed development that is being revised for the transition into the City of Stockbridge. This document is currently being drafted and will be submitted as an attachment to this application.

This document is submitted as a Statement of Intent with regard to this Application, preservation of the Applicant’s constitutional rights, and an application of the criteria provided in the Steinberg

Battle Law

Act to provide a rigorous analysis of the proposed rezoning and land use amendment. A surveyed plat and conceptual site plan of the Subject Property has been filed contemporaneously with the Application, along with other required materials.

II. REVIEW CRITERIA FOR JUSTIFICATION

- A. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property** The zoning proposal will permit a use that is suitable in view of the use and development of the adjacent and nearby property.

The Subject Property is abutted by a residential neighborhood to the south. There are commercial-zoned parcels adjacent east and north of the property. The Southern Crescent site is currently developed and the adjacent tract, which is referenced as tract 2 is currently undeveloped with heavy tree coverage throughout the parcel. The proposed use appears to be suitable in view of the surrounding properties as a residential addition to the Highway 42 corridor.

- B. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property** The land use amendment and zoning proposal will not adversely affect the existing use or usability of adjacent or nearby property.

The proposed land use amendment and zoning proposal will allow the Applicant to improve upon the area surrounding the Subject Property by bringing high-quality architectural design, road access through the Subject Property, jobs, and senior services that are in high demand according to the regional market.

- C. Whether the property will be affected by the zoning proposal has a reasonable economic use as currently zoned.**

Battle Law

The Subject Property does have a reasonable economic use as zoned. However, the land-use amendment and zoning proposal will not change this fact. There is an annexation request which will allow this development to be added to the City of Stockbridge. We believe that this project would best benefit from the regulations established within the City of Stockbridge Zoning Ordinance.

D. Whether the zoning proposal will result in a use that will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities or schools.

The land use amendment and zoning proposal will not result in a use which will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities or schools.

E. Whether the zoning proposal is in conformity with the policy and intent of the land-use plan. The land use amendment and zoning proposal is in conformity with the policy and intent of the land-use plan.

The zoning proposal is appropriate for the simultaneous land use amendment because the assigned land use designation is not compatible as industrial land use. The proposed site will be residential with a low-density yield. The requested change appears to be more conforming with the area given that there are existing residential land uses adjacent to the subject property.

F. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

The Applicant is aware of the conditions that were assigned by Henry County's staff. The applicant intends to carry some of the conditions with some alterations in the

Battle Law

language that will best suit the development regulations and policies of the City of Stockbridge.

III. NOTICE OF CONSTITUTIONAL ALLEGATIONS AND PRESERVATION OF APPLICANT'S CONSTITUTIONAL RIGHTS

The portions of the City of Stockbridge Ordinance, facially and as applied to the Subject Property, which restricts or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the City of Stockbridge Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in violation of the due process and equal protection rights guaranteed by the Fifth Amendment and

Battle Law

Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal by the City Council/ Commission to amend the land use and/or rezone the Subject Property to the classification as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious, and unreasonable manner between the Applicant and owners of similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any rezoning of the Property subject to conditions which are different from the conditions requested by the Applicant to the extent such different conditions would have the effect of further restricting the Applicant's utilization of the property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Subject Property to an unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth herein above.

A refusal to allow the land use amendment and/or rezoning in questions would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution.

A refusal to allow the land use amendment and/or rezoning in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A Section 36-66/1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted. The existing land use designation and/or zoning classification on the Subject Property is unconstitutional as it applies to the Subject Property.

This notice is being given to comply with the provisions of O.C.G.A. Section 36-11-1 to afford the City an opportunity to revise the Property to a constitutional classification. If action is not

Battle Law

taken by the City to rectify this unconstitutional land use designation and/or zoning classification within a reasonable time, the Applicant is hereby placing the City on notice that it may elect to file a claim in the Superior Court of Henry County demanding just and adequate compensation under Georgia law for the taking of the Subject Property, diminution of value of the Subject Property, attorney's fees and other damages arising out of the unlawful deprivation of the Applicant's property rights.

The portions of the City of Stockbridge Ordinance, facially and as applied to the Subject Property, which restricts or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the City of Stockbridge Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in

Battle Law

violation of the due process and equal protection rights guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal to allow the special land use permit in question would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution

IV. Conclusion

Thank you for your consideration for this project. The applicant is more than willing to provide any additional documents and supporting details. For the foregoing reasons, the Applicant respectfully requests that the simultaneous Annexation, Land Use Amendment, and Rezoning application at issue be approved. The Applicant also invites and welcomes any comments from Staff or other officials of the City of Stockbridge so that such recommendations or input might be incorporated as conditions of approval of this Application.

This 1st day of June 2022.

Respectfully submitted,

Michele L. Battle, Esq. Attorney for the Applicant

I. LETTER OF INTENT

S3 Capital Investments, LLC (the “Applicant”) is requesting annexation into the Incorporated City of Stockbridge for the rezoning of 19.995 acres of land, which is further described as parcel 071-01034012. The subject property is currently developed under the unincorporated Henry County Office and Institutional and Mixed-Use zoning districts. The applicant is requesting to be rezoned from OI, LI and MU to PUD a companion Future Land Use Map Amendment request to change the land use designation from Light Industrial to High Density Residential.

The subject property will be adjacent to the Southern Crescent Rehabilitation Center, which is zoned Mixed Use. S3 Capital Investments’ proposal includes 52 detached housing units and 124 attached units for an age-restricted independent living community. The applicant is requesting the petition of zoning and other applicable zoning actions to obtain approval and acceptance of the annexation of both parcels of land which will include a total of 276 total units, which 100 of the units will be provided as part of the South Crescent tract that is designated for assisted living, nursing and rehabilitation.

The applicant currently has a list of conditions for the proposed development that is being revised for the transition into the City of Stockbridge. This document is currently being drafted and will be submitted as an attachment to this application.

This document is submitted as a Statement of Intent with regard to this Application, preservation of the Applicant’s constitutional rights, and an application of the criteria provided in the Steinberg

Battle Law

Act to provide a rigorous analysis of the proposed rezoning and land use amendment. A surveyed plat and conceptual site plan of the Subject Property has been filed contemporaneously with the Application, along with other required materials.

II. REVIEW CRITERIA FOR JUSTIFICATION

- A. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property** The zoning proposal will permit a use that is suitable in view of the use and development of the adjacent and nearby property.

The Subject Property is abutted by a residential neighborhood to the south. There are commercial-zoned parcels adjacent east and north of the property. The Southern Crescent site is currently developed and the adjacent tract, which is referenced as tract 2 is currently undeveloped with heavy tree coverage throughout the parcel. The proposed use appears to be suitable in view of the surrounding properties as a residential addition to the Highway 42 corridor.

- B. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property** The land use amendment and zoning proposal will not adversely affect the existing use or usability of adjacent or nearby property.

The proposed land use amendment and zoning proposal will allow the Applicant to improve upon the area surrounding the Subject Property by bringing high-quality architectural design, road access through the Subject Property, jobs, and senior services that are in high demand according to the regional market.

- C. Whether the property will be affected by the zoning proposal has a reasonable economic use as currently zoned.**

Battle Law

The Subject Property does have a reasonable economic use as zoned. However, the land-use amendment and zoning proposal will not change this fact. There is an annexation request which will allow this development to be added to the City of Stockbridge. We believe that this project would best benefit from the regulations established within the City of Stockbridge Zoning Ordinance.

D. Whether the zoning proposal will result in a use that will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities or schools.

The land use amendment and zoning proposal will not result in a use which will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities or schools.

E. Whether the zoning proposal is in conformity with the policy and intent of the land-use plan. The land use amendment and zoning proposal is in conformity with the policy and intent of the land-use plan.

The zoning proposal is appropriate for the simultaneous land use amendment because the assigned land use designation is not compatible as industrial land use. The proposed site will be residential with a low-density yield. The requested change appears to be more conforming with the area given that there are existing residential land uses adjacent to the subject property.

F. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

The Applicant is aware of the conditions that were assigned by Henry County's staff. The applicant intends to carry some of the conditions with some alterations in the

Battle Law

language that will best suit the development regulations and policies of the City of Stockbridge.

III. NOTICE OF CONSTITUTIONAL ALLEGATIONS AND PRESERVATION OF APPLICANT'S CONSTITUTIONAL RIGHTS

The portions of the City of Stockbridge Ordinance, facially and as applied to the Subject Property, which restricts or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the City of Stockbridge Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in violation of the due process and equal protection rights guaranteed by the Fifth Amendment and

Battle Law

Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal by the City Council/ Commission to amend the land use and/or rezone the Subject Property to the classification as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious, and unreasonable manner between the Applicant and owners of similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any rezoning of the Property subject to conditions which are different from the conditions requested by the Applicant to the extent such different conditions would have the effect of further restricting the Applicant's utilization of the property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Subject Property to an unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth herein above.

A refusal to allow the land use amendment and/or rezoning in questions would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution.

A refusal to allow the land use amendment and/or rezoning in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A Section 36-66/1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted. The existing land use designation and/or zoning classification on the Subject Property is unconstitutional as it applies to the Subject Property.

This notice is being given to comply with the provisions of O.C.G.A. Section 36-11-1 to afford the City an opportunity to revise the Property to a constitutional classification. If action is not

Battle Law

taken by the City to rectify this unconstitutional land use designation and/or zoning classification within a reasonable time, the Applicant is hereby placing the City on notice that it may elect to file a claim in the Superior Court of Henry County demanding just and adequate compensation under Georgia law for the taking of the Subject Property, diminution of value of the Subject Property, attorney's fees and other damages arising out of the unlawful deprivation of the Applicant's property rights.

The portions of the City of Stockbridge Ordinance, facially and as applied to the Subject Property, which restricts or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the City of Stockbridge Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in

Battle Law

violation of the due process and equal protection rights guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal to allow the special land use permit in question would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution

IV. Conclusion

Thank you for your consideration for this project. The applicant is more than willing to provide any additional documents and supporting details. For the foregoing reasons, the Applicant respectfully requests that the simultaneous Annexation, Land Use Amendment, and Rezoning application at issue be approved. The Applicant also invites and welcomes any comments from Staff or other officials of the City of Stockbridge so that such recommendations or input might be incorporated as conditions of approval of this Application.

This 1st day of June 2022.

Respectfully submitted,

Michele L. Battle, Esq. Attorney for the Applicant

ITEM/PROJECT/EVENT:

Consider a Rezoning request (RZ-2022-02) by S3 Capital Investments, LLC, represented by Battle Law, P.C., to rezone two parcels to 'PUD' to allow for an independent living/age-restricted residential development. Tract 1 at 2125 Highway 42 North, with 20 +/- acres, needs to first be annexed into the City. It is currently zoned 'Mixed-Use' by Henry County and it contains the Southern Crescent Rehabilitation and Retirement Center, which would remain. Tract 2 at Highway 42 North and Technology Parkway is currently zoned 'OI' and 'LI'. The Planning Commission recommended Approval With Conditions(5) at its 8/25/22 meeting.

BACKGROUND INFORMATION:

Proposed Development—Existing facility plus 276 new independent living, age-restricted, attached and detached residential units on two parcels, with 42.01 +/- acres.

Companion Applications—1) AX-2022-01 to request the Annexation of Tract 1 into the City; and 2) CP-2022-02 to request a Comprehensive Plan Amendment to change the land use designations of both parcels to 'High-Density Residential'. The rezoning would be contingent upon the official recombination of the two parcels since they currently are not zoned the same.

PURPOSE

Applicant's Request -- Consider a Rezoning application (#RZ-2022-02) by S3 Capital Investments, LLC, represented by Battle Law, P.C., to change the zoning classifications of two parcels, from 'MU' (Mixed-Use) in unincorporated Henry County and both 'OI' (Office-Institutional) and 'LI' (Light Industrial) in the Stockbridge City Limits to 'PUD' (Planned Unit Development), to allow for an independent living / age-restricted residential development. The two parcels would have 42.01 +/- total acres. Their locations and requested zoning changes are described below.

~ **Tract 1 -- Parcel #071-01034012.** Represents Tract 1. Located at 2125 Highway 42 North in unincorporated Henry County, across from Summit View Drive. Applicant proposes to rezone the property from the Henry County zoning classification of 'MU' (Mixed-Use) to the City of Stockbridge's zoning classification of 'PUD' (Planned Unit Development) if the parcel is annexed into the Stockbridge City Limits via the applicant's companion annexation application, AX-2022-01. Contains 20.00 +/- acres. Located in Land Lot 31 of District 7.

~ **Tract 2 -- Parcel #071-01034014.** Represents Tract 2. Located within the Stockbridge City Limits, with frontage on Highway 42 North and situated at the end of Technology Parkway. Applicant proposes to change the property's zoning classification from 'OI' (Office-Institutional) and 'LI' (Light Industrial) to 'PUD' (Planned Unit Development). Contains 22.01 +/- acres. Located in Land Lot 31 of District 7.

ADDITIONAL FINDINGS OF FACT

- 1. Recombination of Parcels Needed --** If the proposed Annexation (AX-2022-01) approved, and the applicant wishes to proceed with the proposed development, then the applicant would need to combine both parcels for both the requested Comprehensive Plan Amendment (CP-2022-02) and the requested rezoning (RZ-2022-02) to be approved. To facilitate this, a Recombination Plat application would be required, and it could be handled administratively.
- 2. Companion Applications --** The applicant has also applied for the annexation of Parcel #071-01034012 (Tract 1) in unincorporated Henry County via AX-2022-01, and a Comprehensive Plan amendment via CP-2022-02 for both parcels. If Tract 1 is approved for annexation into the City, then its future land use designation would need to be changed from Henry County's land use designation of 'MIX' (Mixed-Use) to the City's land use designation of 'High-Density Residential'. Tract 2 would need to have its future land use designation changed from 'Light Industrial' and 'Low-Density Vertical Mixed-Use' to 'High-Density Residential'.
- 3. Presence of Stream --** A small stream borders the subject property to the north. It appears to be a tributary of Wolfe Creek.

HENRY COUNTY LAND USE DESIGNATION MAP

From the Henry County Comprehensive Plan

The subject property (a.k.a. "Tract 1") is shown in the lavender color on the map below. It has a future land use designation of 'MIX' (Mixed Use). The other colors on the map show properties which are also located within unincorporated Henry County.

CONCEPTUAL SITE PLAN

The Conceptual Site Plan shows three proposed accesses into the site, a central street connecting the two tracts and crossing over a stream, amenities for each tract, and three detention ponds.

RENDERING

This rendering suggests the provision of pitched roofs, mostly hardiplank siding, and single-car garages.

ANALYSIS OF REQUEST -- PAGE ONE

1. Consistency with the Comprehensive Plan. The proposed development is not consistent with the Comprehensive Plan's land use designations for the subject property. A Comprehensive Plan amendment is necessary because the current land use designations do not allow the type of development which the applicant is proposing, or they do not allow the proposed residential densities. The applicant therefore has applied for a Comprehensive Plan amendment via CP-2022-02 to change the future land use designations of the two parcels as follows:

- ~ Tract 1--**From Henry County's land use designation of 'Mixed-Use' to the City of Stockbridge's land use designation of 'High-Density Residential', which would be more appropriate for the applicant's proposed type of development and would indicate the approximate density of the project.
- ~ Tract 2—**From the City's land use designations of 'Light Industrial' and 'Low-Density Vertical Mixed-Use' to 'High-Density Residential'. The existing 'Light Industrial' land use designation does not allow residential uses, and the existing 'Low-Density Vertical Mixed-Use' land use designation is intended for buildings which contain commercial uses on the ground floor and residential uses on the upper floors.

ANALYSIS OF REQUEST -- PAGE TWO

- 2. Rationale for the Rezoning --** The rezoning of the subject property to the requested 'PUD' (Planned Unit Development) is necessary because the proposed development would include both attached and detached residential units, as well as the existing Southern Crescent Rehabilitation and Retirement Center. The property is justified for rezoning to PUD, as opposed to MFR (Multiple Family Residential) due to: 1) the inclusion of Southern Crescent; and 2) the presence of the Wolfe Creek tributary and its associated floodplain areas, which necessitates some flexibility in site design.
- 3. Potential Positive Effects --** Since the proposed development would be primarily composed of residential uses, the requested PUD zoning would be compatible with the MFR zoning districts to the west, south, and east, where the Magnolias at Eagles Landing, the Highlands at Eagles Landing, and the Summit at Eagles Landing Subdivisions are located. PUD zoning would also serve as a good transition from the LI and OI districts to the north. Further, PUD zoning would be comparable to Henry County's MU (Mixed Use) zoning for Tract 1.
- 4. Site Suitability --** The subject property has an unusual shape, and it is traversed by a tributary of Wolfe Creek. These may present challenges for the final site design of the property. The applicant's Conceptual Site Plan shows that due to the presence of the creek, the proposed residential units would be separated into northern and southern sections on the site. A bridge would likely need to be constructed over the creek, and the units in the southern section would be constructed away from the floodplain area.

ANALYSIS OF REQUEST – PAGE THREE

- 5. Impact upon Adjacent Property Owners.** The proposed development would be compatible with the adjacent residential uses to the west, south, and east; and it would be a good transition from the warehouse uses and church to the north.
- 6. Impact on the Water and Sewage System.** A letter from the Henry County Water Authority, dated May 23, 2022, states that water service, sewage treatment, and sewer line treatment are available at the subject property, but that the proposed project layout conflicts with an existing 8-inch sewer line. Thus, the sewer will have to be relocated at the developer's expense, and an easement will be required to access the sewer line from Highway 42 North. The availability of water and sewer service to the site will be re-evaluated at the time when development plans are submitted. Therefore, the developer will need to work closely with the Water Authority to ensure that adequate water and sewer service will be available.
- 7. Traffic and Transportation Impacts.** The Conceptual Site Plan shows that the proposed development would have three accesses. These include the existing driveway which serves serves the Southern Crescent Rehabilitation & Retirement Center, the extension of Technology Parkway, and a new access from Highway 42 across from Glenmore Drive. Since Highway 42 North is a State highway, the developer should coordinate both Georgia DOT and Henry County DOT in providing deceleration lanes at all three accesses, as well as the possible installation of a new traffic signal. Pedestrian crosswalks should also be installed.

ANALYSIS OF REQUEST – PAGE FOUR

- 8. Zoning District Compatibility.** The proposed development qualifies for the requested PUD zoning because it meets the requirement that PUD districts contain at least two types of residential uses. The proposed development would also further the objectives of the Parkway Mixed-Use Overlay district by including a mixture of land uses, representing an attractive gateway into the City (upon the successful annexation of Tract 1 into the City), and representing an innovative type of development.
- 9. Site Developability Under Present Zoning.** Tract 1 could be developed under its existing Henry County zoning classification of MU (Mixed-Use) since that is similar to the City's PUD district. Tract 2 could also be developed with additional warehouses and office-institutional uses. However, due to the irregular shape of Tract 2, the development of those types of uses may be challenging, and PUD zoning offers greater flexibility in land uses and site design.
- 10. Environmental Impacts –** The developer would need to coordinate with City engineers and other environmental officials regarding a bridge crossing over the existing stream, as well as the protection of sensitive floodplain areas.

STAFF RECOMMENDATION – PAGE ONE

The requested Rezoning of the subject property to 'PUD' (Planned Unit Development) via RZ-2022-02 would be necessary and desirable for the subject property to allow for the proposed independent living/age-restricted residential development. The Planning and Zoning Staff therefore recommends the **APPROVAL WITH CONDITIONS** of the requested Rezoning via RZ-2022-02. The recommended conditions are as follows:

- 1. Annexation Approval –** The rezoning shall not be approved until the requested annexation of Tract 1 via AX-2022-01 is approved before, or simultaneously with, the approval of RZ-2022-02.
- 2. Comprehensive Plan Amendment Approval –** The rezoning shall not be approved until the requested Comprehensive Plan Amendment, via CP-2022-02, to change the land use designations of both parcels to 'High-Density Residential', is approved before, or simultaneously with, the approval of RZ-2022-02.
- 3. Recombination Approval –** No permits shall be issued for the proposed development until the two parcels comprising the subject property are officially combined via an administrative recombination plat application. This shall only occur after the applicant has submitted proof to the Community Development Department that an acceptable new plat has been recorded by the Henry County Superior Court / Real Estate Records Division.

STAFF RECOMMENDATION – PAGE TWO

- 4. Adherence to Conceptual Site Plan –** The developer shall adhere substantially to the submitted Conceptual Site Plan. Any major deviations in the number of residential units, the density, or the overall design shall require City Council approval.
- 5. Water and Sewer Availability –** The developer shall comply with the requirements of the Henry County Water Authority in relocating the existing 8-inch sewer line, providing the required easement, and taking any other necessary steps to ensure that adequate water and sewer services are available to serve the proposed development.

SUBJECT: **Rezoning Case #RZ-2022-02 for Two Parcels:**
1) Property at 2125 Highway 42 North within unincorporated Henry County; and 2) Property at Highway 42 North and Technology Parkway in the City of Stockbridge.

I. PURPOSE

Consider a Rezoning application (#RZ-2022-02) by S3 Capital Investments, LLC, represented by Battle Law, P.C., to change the zoning classifications of two parcels, from 'MU' (Mixed-Use) in unincorporated Henry County and both 'OI' (Office-Institutional) and 'LI' (Light Industrial) in the Stockbridge City Limits to 'PUD' (Planned Unit Development), to allow for an independent living / age-restricted residential development. The two parcels would have 42.01 +/- total acres. Their locations and requested zoning changes are described below.

- Parcel #071-01034012 – Represents Tract 1. Located at 2125 Highway 42 North in unincorporated Henry County, across from Summit View Drive. Applicant proposes to rezone the property from the Henry County zoning classification of 'MU' (Mixed-Use) to the City of Stockbridge's zoning classification of 'PUD' (Planned Unit Development) if the parcel is annexed into the Stockbridge City Limits via the applicant's companion annexation application, AX-2022-01. Contains 20.00 +/- acres. Located in Land Lot 31 of District 7.
- Parcel #071-01034014—Represents Tract 2. Located within the Stockbridge City Limits, with frontage on Highway 42 North and situated at the end of Technology Parkway. Applicant proposes to change the property's zoning classification from 'OI' (Office-Institutional) and 'LI' (Light Industrial) to 'PUD' (Planned Unit Development). Contains 22.01 +/- acres. Located in Land Lot 31 of District 7.

II. BACKGROUND

Proposed Development	Independent living /age-restricted residential development.
Site Address	2125 Highway 42 North, across from Summit View Drive; and Highway 42 North at Technology Parkway.
Parcel Identification	Subject property includes two parcels: 1) Parcel #071-01034012 with 20.00 acres in unincorporated Henry County; and 2) Parcel # 071-01034014 with 22.01 in the City of Stockbridge.
Parcel Acreage	42.01 +/- total acres within two parcels.
Applicant	S3 Capital Investments, LLC.
Owner	Southern Crescent Rehabilitation & Retirement Community, Inc.
Current County Zoning	'MU' (Mixed-Use).
Current City Zoning	'LI' (Light Industrial) and 'OI' (Office-Institutional)
Surrounding Zoning	'OI' (Office-Institutional); 'MFR' (Multiple Family Residential); 'C-2' (General Commercial)
County Land Use Designation	'MIX' (Mixed-Use).
City Land Use Designation	'Light Industrial' and Low-Density Vertical Mixed Use'
Current Use	The Southern Crescent Rehabilitation & Retirement Center is located on Parcel #071-01034012 at 2125 Highway 42 North.
Surrounding Land Uses	• <u>North</u>—Industrial warehouses; a church. • <u>South and West</u>—Magnolias at Eagles Landing Subdivision. • <u>East</u>—Industrial warehouse; Highlands at Eagles Landing Subdivision; Summit at Eagles Landing Subdivision; a Thai restaurant.

III. FINDINGS OF FACT

- If the requested companion annexation case (AX-2022-01) is approved, and the applicant wishes to proceed with the proposed development, then the applicant would need to combine both parcels for both the requested rezoning case (RZ-2022-02) and the requested Comprehensive Plan amendment case (CP-2022-02) to be approved. To facilitate this, a Recombination Plat application would be required, and it could be handled administratively.
- The applicant has also applied for the annexation of Parcel #071-01034012 (Tract 1) in unincorporated Henry County via AX-2022-01, and a Comprehensive Plan amendment via CP-2022-02 for both parcels. If Tract 1 is approved for annexation into the City, then its future land use designation would need to be changed from Henry County's land use designation of 'MIX' (Mixed-Use) to the City's land use designation of 'High-Density Residential'. Tract 2 would need to have its future land use designation changed from 'Light Industrial' and 'Low-Density Vertical Mixed-Use' to 'High-Density Residential'.
- A small stream borders the subject property to the north. It appears to be a tributary of Wolfe Creek.

IV. PROJECT DESCRIPTION

The applicant requests a rezoning of the subject property to allow for an independent living / age-restricted residential development proposal, which would include both parcels. Tract 1 would include the existing Southern Crescent Rehabilitation & Retirement Center, as well as the construction of 100 new independent living units, including 7 detached units and 93 attached units, with a density of 5 units per acre. Tract 2, which is currently vacant, would feature the construction of 176 independent living units, including 52 detached units and 124 attached units, with a density of 8 units per acre. The total development, including both parcels, would contain 276 independent living units, with a density of 6.6 units per acre.

The applicant's submitted Conceptual Site Plan shows that three accesses would be provided into the proposed development. These include the existing driveway at 2125 Highway 42 North, which serves the existing Southern Crescent Rehabilitation & Retirement Center; a new entrance off Highway 42 North, across from Glenmore Lane; and the extension of Technology Parkway. A central street would connect the two tracts, crossing over the existing stream.

Each tract would have its own set of amenities. The subject property (Tract 1) would contain a clubhouse, a pool, and a cabana, while Tract 2 would contain pickleball courts, a pool, and a cabana. Tract 1 would contain two small detention ponds and Tract 2 would contain a larger detention pond. The submitted rendering suggests that the proposed residential units would have pitched roofs, hardiplank veneers, and single-car garages.

This rendering suggests the provision of pitched roofs, mostly hardiplank siding, and single-car garages.

V. ANALYSIS OF REQUEST

The applicant requests a **Rezoning** under Section 9.2.1(C) of the City of Stockbridge's Unified Development Code (UDC). The Planning Commission and the City Council shall consider the following nine (9) standards in considering any proposal that would result in a change to the text or map of the UDC, giving due weight or priority to those factors that are appropriate to the circumstances of each proposal.

STANDARD #1--Consistency with the Comprehensive Plan.

The proposed development is not consistent with the Comprehensive Plan's land use designations for the subject property. A Comprehensive Plan amendment is necessary because the current land use designations do not allow the type of development which the applicant is proposing, or they do not allow the proposed residential densities. The applicant therefore has applied for a Comprehensive Plan amendment via CP-2022-02 to change the future land use designations of the two parcels as follows:

- Tract 1--From Henry County's land use designation of 'Mixed-Use' to the City of Stockbridge's land use designation of 'High-Density Residential', which would be more appropriate for the applicant's proposed type of development and would indicate the approximate density of the project.
- Tract 2—From the City's land use designations of 'Light Industrial' and 'Low-Density Vertical Mixed-Use' to 'High-Density Residential'. The existing 'Light Industrial' land use designation does not allow residential uses, and the existing 'Low-Density Vertical Mixed-Use' land use designation is intended for buildings which contain commercial uses on the ground floor and residential uses on the upper floors.

STANDARD #2 -- The relation that the proposed rezoning amendment bears to the purpose of the overall zoning scheme with due consideration given to whether or not the proposed change will help carry out the purposes of the City of Stockbridge Unified Development Code (UDC).

The rezoning of the subject property to the requested 'PUD' (Planned Unit Development) is necessary because the proposed development would include both attached and detached residential units, as well as the existing Southern Crescent Rehabilitation and Retirement Center. The property is justified for rezoning to PUD, as opposed to MFR (Multiple Family Residential) due to 1) the inclusion of Southern Crescent; and 2) the presence of the Wolfe Creek tributary and its associated floodplain areas, which necessitates some flexibility in site design.

STANDARD #3 -- Potential positive effects of the rezoning amendment on the character of the proposed zoning district, a particular piece of property, neighborhood, a particular area, or community.

Since the proposed development would be primarily composed of residential uses, the

requested PUD zoning would be compatible with the MFR zoning districts to the west, south, and east, where the Magnolias at Eagles Landing, the Highlands at Eagles Landing, and the Summit at Eagles Landing Subdivisions are located. PUD zoning would also serve as a good transition from the LI and OI districts to the north. Further, PUD zoning would be comparable to Henry County's MU (Mixed Use) zoning for Tract 1.

STANDARD #4 -- The physical conditions of the site relative to its capability to be developed as requested, including topography, drainage, access, and size and shape of the property.

The subject property has an unusual shape, and it is traversed by a tributary of Wolfe Creek. These may present challenges for the final site design of the property. The applicant's Conceptual Site Plan shows that due to the presence of the creek, the proposed residential units would be separated into northern and southern sections on the site. A bridge would likely need to be constructed over the creek, and the units in the southern section would be constructed away from the floodplain area.

STANDARD #5 --The impact upon adjacent property owners should the request be granted.

The proposed development would be compatible with the adjacent residential uses to the west, south, and east; and it would be a good transition from the warehouse uses and church to the north.

STANDARD # 6 -- The potential impact of the rezoning on City infrastructure including water and sewage system.

A letter from the Henry County Water Authority, dated May 23, 2022, states that water service, sewage treatment, and sewer line treatment are available at the subject property. However, it further states as follows:

Please note that the proposed layout for the project conflicts with an existing 8-inch sewer line; consequently, the sewer will have to be relocated at the developer's expense. Additionally, an easement will be required to access the sewer line from Hwy 42 North.

The letter further states that the availability of water and sewer service to the site will be re-evaluated at the time when development plans are submitted. Based on this, the developer will need to work closely with the Water Authority to ensure that adequate water and sewer service will be available to serve the proposed development.

STANDARD #7 -- The impact of the proposed amendment on adjacent thoroughfares and pedestrian and vehicular circulation and traffic volumes.

The Conceptual Site Plan shows that the proposed development would have three accesses. These include the existing driveway which serves the Southern Crescent Rehabilitation & Retirement Center, the extension of Technology Parkway, and a new

access from Highway 42 across from Glenmore Drive. Since Highway 42 North is a State highway, the developer should coordinate both Georgia DOT and Henry County DOT in providing deceleration lanes at all three accesses, as well as the possible installation of a new traffic signal. Pedestrian crosswalks should also be installed.

STANDARD #8 -- The merits of the requested change in zoning relative to any other guidelines and policies for development, which the Planning Commission and City Council may use in furthering the objective of the comprehensive plan.

The proposed development qualifies for the requested PUD zoning because it meets the requirement that PUD districts contain at least two types of residential uses.

The proposed development would further the objectives of the Parkway Mixed-Use Overlay district by including a mixture of land uses, representing an attractive gateway into the City (upon the successful annexation of Tract 1 into the City), and representing an innovative type of development.

STANDARD #9 -- The ability of the subject land to be developed as it is presently zoned.

Tract 1 could be developed under its existing Henry County zoning classification of MU (Mixed-Use) since that is similar to the City's PUD district. Tract 2 could also be developed with additional warehouses and office-institutional uses. However, due to the irregular shape of Tract 2, the development of those types of uses may be challenging, and PUD zoning offers greater flexibility in land uses and site design.

SUMMARY OF IMPACTS AND CONCERNS

Code Compliance	The proposed development would comply with the requested PUD district.
Police Department	Police services would be provided by the Stockbridge Police Department.
Fire Marshal	The Fire Marshal has required and approved the location of the new access that is shown on the Conceptual Site Plan.
Henry County Water and Sewer	The developer must meet the requirements that are stated in the Henry County Water Authority's letter, dated May 23, 2022.
Building	Any additional requirements would be identified during the plan review stage. City engineers should look closely at the site design of the creek and floodplain areas.
Traffic	The developer should coordinate with Henry County DOT regarding the installation of the new access, deceleration lanes, and a possible new traffic signal.

STAFF RECOMMENDATION

This Staff Report has demonstrated that the requested Rezoning of the subject property to 'PUD' (Planned Unit Development) via RZ-2022-02 would be necessary and desirable for the subject property to allow for the proposed independent living/age-restricted residential development. The Planning and Zoning Staff therefore recommends the **APPROVAL WITH CONDITIONS** of the requested Rezoning via RZ-2022-02. The recommended conditions are as follows:

1. **Annexation Approval** – The rezoning shall not be approved until the requested annexation of Tract 1 via AX-2022-01 is approved before, or simultaneously with, the approval of RZ-2022-02.
2. **Comprehensive Plan Amendment Approval** – The rezoning shall not be approved until the requested Comprehensive Plan Amendment, via CP-2022-02, to change the land use designations of both parcels to 'High-Density Residential', is approved before, or simultaneously with, the approval of RZ-2022-02.
3. **Recombination Approval** – No permits shall be issued for the proposed development until the two parcels comprising the subject property are officially combined via an administrative recombination plat application. This shall only occur after the applicant has submitted proof to the Community Development Department that an acceptable new plat has been recorded by the Henry County Superior Court / Real Estate Records Division.
4. **Adherence to Conceptual Site Plan** – The developer shall adhere substantially to the submitted Conceptual Site Plan. Any major deviations in the number of residential units, the density, or the overall design shall require City Council approval.
5. **Water and Sewer Availability** – The developer shall comply with the requirements of the Henry County Water Authority in relocating the existing 8-inch sewer line, providing the required easement, and taking any other necessary steps to ensure that adequate water and sewer services are available to serve the proposed development.

Comp Plan Conditions

1. The residential portion of the project shall be single-family attached and detached units arranged in a cluster style with a minimum of a six foot side yard setback to maintain properly distanced residences without the firewall requirement. Front yards can be a minimum of 20 feet to help reduce the need for extensive yard maintenance.
2. ~~The community Development (Planning & Zoning) Department should have architectural control to ensure that the constructed buildings conform to the surrounding residential and commercial/industrial area. Of primary concern would be the compatibility of the institutional building in relation to the cluster homes, and in turn with the entire development and adjoining properties.~~
3. Lighting should be subdued, especially with respect to the bordering residential units. A lighting plan should be submitted at the tie of development to ensure that little intrusion occurs to the adjacent properties.
4. A sizeable undisturbed or landscaped buffer should exist at the entrance of the site as well as all border of the property. The entrance to the property should be left as undisturbed or with enhanced landscaping to separate the property from S.R. 42 and its associated traffic noise.
5. All of the common grounds – including the parking area – should be heavily landscaped, ~~with Community Development (Planning & Zoning) retaining approval of landscaping, especially in regards to our new proposed landscape ordinance currently underway.~~
6. Interior sidewalks, streetlights, and sodded lawns should be conditioned for the cluster assisted living units. In addition, two trees shall be planted in the front of the cluster units should these areas be completely graded for construction.
7. ~~Access should be gated to provide for the security of the entire facility.~~
8. ~~Any deviation from the submitted site plan is subject to further review by the Community Development (Planning & Zoning) Department, this (Zoning Advisory) Board, and, if needed, the Board of Commissioners.~~

Rezoning Conditions

1. The use of the subject property shall be limited to memory care, assisted living, and independent living with associated amenities and provision of care, meeting use requirements.
2. Entrances shall be located such that the minimum intersection sight distance and the minimum spacing requirement are met per the road's posted speed limit, and shall have a deceleration lane and acceleration taper designed and constructed to HCDOT standards.
3. All disturbed areas shall be sodded, except where landscaping is present or installed.
4. The residential portion of the development shall consist of cluster single-family attached and detached units, only. The total number of dwelling units shall be limited to 100. Compliance with the zoning conditions and development standards may further limit the number of dwelling units.
5. ~~An on-site amenity package shall be provided and shall consist of at least the following:~~
 - a. ~~One (1) Community Center which includes, at a minimum, the following:~~
 - i. Pool
 - ii. Fitness facility

iii. Meeting rooms

iv. Business Center

b. Two (2) outdoor recreation areas including walking trails and three (3) pavilions.

The pavilions shall be no less than 1,200 square feet.

6. The community center shall be completed prior to the issuance of the fiftieth (50th) building permit of a single-family attached or detached dwelling unit.
7. ~~The residential portion of the development shall comply with Section 4.03.30 of the ULDC regarding single-family senior adult housing.~~
8. Provision of care and/or personal services, as defined by O.C.G.A. 31-7-12.2(b)(2), shall be provided to any assisted living and independent living residents before the first single-family attached or detached unit receives any certificate of occupancy.
9. ~~Any approved development shall be limited to a maximum of 60 dwelling units until the proposed access point to the north, as depicted on the site plan dated April 9, 2021, is designed and constructed to HCDOT and City of Stockbridge standards, and connects to an already existing public right of way. This access point shall be open for the use of the residents within five (5) years from the date of approval of this rezoning resolution or before the issuance of the Certificate of Occupancy (CO) of the 61st dwelling unit, whichever occurs first. No additional permits shall be issued until the developer has engineered and constructed the secondary access.~~
10. The subject property shall not, at any time, be developed as a traditional single-family and/or multi-family residential development (even if it is age-marketed or age-targeted) or any other type of residential community that does not require each single-family attached or detached unit to house an individual which requires a level of care that is provided by the assisted living facility.
11. No more than fifteen percent (15%) of the homes shall be rented out at any one time.
12. Only the management of the owners/operators of the existing rehabilitation center and/or assisted living facility at the subject property, currently Southern Crescent Rehab & Rehab Retirement Co., Inc. as per current public tax records, may rent dwelling units.
13. Community facilities, recreational areas, access gate(s), if any, public space(s), and open space(s) shall be maintained by the existing, and all subsequent, owners/operators of the existing rehabilitation center and/or assisted living facility at the subject property, currently Southern Crescent Rehab & Retirement Co., Inc., As per current public tax records.
14. ~~A traffic impact study (TIS) shall be required before the approval of the first development permit. At a minimum, the developer/owner's engineer shall provide an Intersection Control Evaluation Study to GDOT of the site's existing access per GDOT's requirements. The developer/owner shall be responsible to provide all of the indicated Improvements as required by the ULDC.~~
15. ~~The dwelling units shall be limited to condominium units.~~
16. The dwelling units shall be limited to units with two (2) or three (3) bedrooms. Each dwelling unit shall have a minimum of two (2) full bathrooms.
17. The dwelling units shall have a minimum of 1,600 square feet with a running minimum average of 1,800 square feet.
18. ~~The dwelling units shall be Craftsman style as approved by the planning & Zoning Department and shall have a minimum 3' high water table consisting of brick or similar.~~

19. Each permitted home in the development shall be compatible with existing homes, as determined by the planning & Zoning Department. ~~The Planning & Zoning Department is authorized to require the heated square footage to be increased and/or the architectural style to be modified in instances where incompatibility is determined.~~
20. Each dwelling unit shall have a garage. Garages shall be setback a minimum of 12" from the front dripline of the home. Greater than 50% of the dwelling units shall have a two-car garage. The balance shall have one and a half car garages. Garages shall have crown molding complimentary to the exterior of the homes.
21. Four (4) of the dwelling units shall be reserved for those leaving the care of assisted living, needing transitional living arrangements. No permits of any kind shall be approved unless all four of these transitional living units are included.
22. All stormwater management facilities shall be environmentally friendly, landscaped, enclosed with a minimum 4' high fence, and be included in the common area to be maintained by the HOA. No detention pond shall be located on private property.
23. An HOA shall be required and shall maintain the common areas and building exteriors. Community facilities, recreational areas, access gate(s), if any, public space(s), and open space(s) shall be maintained by the existing, and all subsequent, owners/operators of the existing rehabilitation center and/or assisted living facility at the subject property, currently Southern Crescent Rehab & Retirement Co., Inc., As per current public tax records, the HOA.

TO WHOM IT MAY CONCERN:

You have requested that this Authority provide you with information concerning the present availability of water and sewer services to the above-described property. This letter is being provided for informational purposes only and will not act to reserve water capacity to you or the property and will not create any liability to the Authority. The information contained in this letter will remain in effect for a period of **365** days from the date of this letter unless subsequently notified in writing by the Authority. The information provided herein is based upon the above-stated zoning of the property. Any deviation in zoning that would increase density or usage above that evaluated by the Authority will automatically void the information provided herein and will require a separate re-evaluation by this Authority.

Water service is available to the property described above. A fire flow test calculated in the area revealed the following data:

Static:	108	psi
Residual:	98	psi
Flow	1570	gpm
Calculated Flow @ 20 psi:	5080	gpm

As shown, these results are above the minimum adopted standards of 20 psi residual pressure at 1000 gpm for said proposed conditional use as established by the Henry County Board of Commissioners.

Sewage treatment and sewer line capacity are available for the property. *Please note that the proposed layout for the project is in conflict with an existing 8-inch sewer line; consequently, the sewer will have to be relocated at the developer's expense. Additionally, an easement will be required to access the sewer line from Hwy 42 North.*

The Authority provides water and sewer services where capacity is available on a first-come, first served basis. Each customer, developer, and property owner must also comply with the rules, regulations, and ordinances of the Authority.

The Authority will reevaluate the availability of water and sewer services to the property at the time that the development plans are submitted. If there are any additional requirements, or if water or sewer capacity is not available, you will be notified in writing.

This letter was prepared with information submitted to HCWA on a Conceptual Site Plan dated 05/17/22 prepared by Moore Bass Consulting, Inc.

I. LETTER OF INTENT

S3 Capital Investments, LLC (the “Applicant”) is requesting annexation into the Incorporated City of Stockbridge for the rezoning of 19.995 acres of land, which is further described as parcel 071-01034012. This property is currently developed under the unincorporated Henry County Office Mixed-Use zoning district. The applicant is requesting that this property be annexed into the Incorporated City of Stockbridge and to be rezoned from MU to

Additionally, the Applicant is seeking to rezone a second parcel that is already located within the Incorporated City of Stockbridge bearing parcel number [REDACTED] that parcel is currently zoned [REDACTED] and [REDACTED], and the Applicant is seeking to rezone it to [REDACTED] the Applicant intends to combine this parcel with the above mentioned parcel after the annexation and rezoning of each are complete so as to create one new parcel under the [REDACTED] zoning district

A future land use Amendment Application has been filed to change the future land use on both of the above mentioned parcels the request seeks to change the future land use from mixed use, light Industrial, and low density vertical mixed use to high density residential

This document is submitted as a Statement of Intent with regard to this Application, preservation of the Applicant’s constitutional rights, and an application of the criteria provided in the Steinberg

Battle Law

Act to provide a rigorous analysis of the proposed rezoning and land use amendment. A surveyed plat and conceptual site plan of the Subject Property has been filed contemporaneously with the Application, along with other required materials.

II. REVIEW CRITERIA FOR JUSTIFICATION

- A. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property** The zoning proposal will permit a use that is suitable in view of the use and development of the adjacent and nearby property.

The Subject Property is abutted by a residential neighborhood to the south. There are commercial-zoned parcels adjacent east and north of the property. The Southern Crescent site is currently developed and the adjacent tract, which is referenced as tract 2 is currently undeveloped with heavy tree coverage throughout the parcel. The proposed use appears to be suitable in view of the surrounding properties as a residential addition to the Highway 42 corridor.

- B. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property** The land use amendment and zoning proposal will not adversely affect the existing use or usability of adjacent or nearby property.

The proposed land use amendment and zoning proposal will allow the Applicant to improve upon the area surrounding the Subject Property by bringing high-quality architectural design, road access through the Subject Property, jobs, and senior services that are in high demand according to the regional market.

- C. Whether the property will be affected by the zoning proposal has a reasonable economic use as currently zoned.**

Battle Law

The Subject Property does have a reasonable economic use as zoned. However, the land-use amendment and zoning proposal will not change this fact. There is an annexation request which will allow this development to be added to the City of Stockbridge. We believe that this project would best benefit from the regulations established within the City of Stockbridge Zoning Ordinance.

D. Whether the zoning proposal will result in a use that will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities or schools.

The land use amendment and zoning proposal will not result in a use which will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities or schools.

E. Whether the zoning proposal is in conformity with the policy and intent of the land-use plan. The land use amendment and zoning proposal is in conformity with the policy and intent of the land-use plan.

The zoning proposal is appropriate for the simultaneous land use amendment because the assigned land use designation is not compatible as industrial land use. The proposed site will be residential with a low-density yield. The requested change appears to be more conforming with the area given that there are existing residential land uses adjacent to the subject property.

F. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

The Applicant is aware of the conditions that were assigned by Henry County's staff. The applicant intends to carry some of the conditions with some alterations in the

Battle Law

language that will best suit the development regulations and policies of the City of Stockbridge.

III. NOTICE OF CONSTITUTIONAL ALLEGATIONS AND PRESERVATION OF APPLICANT'S CONSTITUTIONAL RIGHTS

The portions of the City of Stockbridge Ordinance, facially and as applied to the Subject Property, which restricts or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the City of Stockbridge Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in violation of the due process and equal protection rights guaranteed by the Fifth Amendment and

Battle Law

Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal by the City Council/ Commission to amend the land use and/or rezone the Subject Property to the classification as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious, and unreasonable manner between the Applicant and owners of similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any rezoning of the Property subject to conditions which are different from the conditions requested by the Applicant to the extent such different conditions would have the effect of further restricting the Applicant's utilization of the property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Subject Property to an unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth herein above.

A refusal to allow the land use amendment and/or rezoning in questions would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution.

A refusal to allow the land use amendment and/or rezoning in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A Section 36-66/1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted. The existing land use designation and/or zoning classification on the Subject Property is unconstitutional as it applies to the Subject Property.

This notice is being given to comply with the provisions of O.C.G.A. Section 36-11-1 to afford the City an opportunity to revise the Property to a constitutional classification. If action is not

Battle Law

taken by the City to rectify this unconstitutional land use designation and/or zoning classification within a reasonable time, the Applicant is hereby placing the City on notice that it may elect to file a claim in the Superior Court of Henry County demanding just and adequate compensation under Georgia law for the taking of the Subject Property, diminution of value of the Subject Property, attorney's fees and other damages arising out of the unlawful deprivation of the Applicant's property rights.

The portions of the City of Stockbridge Ordinance, facially and as applied to the Subject Property, which restricts or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the City of Stockbridge Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in

Battle Law

violation of the due process and equal protection rights guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal to allow the special land use permit in question would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution

IV. Conclusion

Thank you for your consideration for this project. The applicant is more than willing to provide any additional documents and supporting details. For the foregoing reasons, the Applicant respectfully requests that the simultaneous Annexation, Land Use Amendment, and Rezoning application at issue be approved. The Applicant also invites and welcomes any comments from Staff or other officials of the City of Stockbridge so that such recommendations or input might be incorporated as conditions of approval of this Application.

This 1st day of June 2022.

Respectfully submitted,

Michele L. Battle, Esq. Attorney for the Applicant

RESOLUTION NO. 21-235

RESOLUTION APPROVING A REZONING REQUEST FROM OI (OFFICE-INSTITUTIONAL) TO MU (MIXED USE) FOR PROPERTY LOCATED AT 2125 HIGHWAY 42 NORTH IN LAND LOTS 31 AND 34 OF THE 7TH DISTRICT CONSISTING OF 19.995 +/- ACRES

WHEREAS, Southern Crescent of McDonough, GA requests a rezoning (**RZ-21-18**) from OI (Office-Institutional) to MU (Mixed Use) for property located at 2125 Highway 42 North (Parcel: 071-01034012) in Land Lots 31 and 34 of the 7th District consisting of 19.995 +/- acres for a mixed use single-family residential and institutional living development; and

WHEREAS, all County and State requirements for legal advertisement and a public hearing have been met; and

WHEREAS, the Planning & Zoning Staff for Henry County has reviewed the request and submitted a report that is part of the public record; and

WHEREAS, the Henry County Zoning Advisory Board reviewed and recommended approval of the applicant's request on May 27, 2021;

NOW, THEREFORE, BE IT RESOLVED THAT the Henry County Board of Commissioners **approves** the applicant's request with the following conditions:

1. The uses of the subject property shall be limited to memory care, assisted living, and independent living with associated amenities and provision of care, meeting use requirements.
2. Entrances shall be located such that the minimum intersection sight distance and the minimum spacing requirement are met per the road's posted speed limit, and shall have a deceleration lane and acceleration taper designed and constructed to HCDOT standards.
3. All disturbed areas shall be sodded, except where landscaping is present or installed.
4. The residential portion of the development shall consist of cluster single-family attached and detached units, only. The total number of dwelling units shall be limited to 100. Compliance with zoning conditions and development standards may further limit the number of dwelling units.
5. An on-site amenity package shall be provided and shall consist of at least the following:
 - (a) One (1) Community Center which includes, at a minimum, the following:
 - (i) Pool
 - (ii) Fitness facility
 - (iii) Meeting rooms
 - (iv) Business Center
 - (b) Two (2) outdoor recreation areas including walking trails and three (3) pavilions. The pavilions shall be no less than 1,200 square feet.
6. The community center shall be completed prior to the issuance of the fiftieth (50th) building permit of a single-family attached or detached dwelling unit.
7. The residential portion of the development shall comply with Section 4.03.30 of the ULDC regarding single-family senior adult housing.

8. Provision of care and/or personal services, as defined by O.C.G.A. 31-7-12.2(b)(2), shall be provided to any assisted living and independent living residents before the first single-family attached or detached unit receives any certificate of occupancy.
9. Any approved development permit shall be limited to a maximum of 60 dwelling units until the proposed access point to the north, as depicted on the site plan dated April 9, 2021, is designed and constructed to HCDOT and City of Stockbridge standards, and connects to an already existing public right-of-way. This access point shall be open for the use of the residents within five (5) years from the date of approval of this rezoning resolution or before the issuance of the Certificate of Occupancy (CO) of the 61st dwelling unit, whichever occurs first. No additional permits shall be issued until the developer has engineered and constructed the secondary access.
10. The subject property shall not, at any time, be developed as a traditional single-family and/or multi-family residential development (even if it is age-marketed or age-targeted) or any other type of residential community that does not require each single-family attached or detached unit to house an individual which requires a level of care that is provided by the assisted living facility.
11. No more than fifteen percent (15%) of the homes shall be rented out at any one time.
12. Only the management of the owners/ operators of the existing rehabilitation center and/or assisted living facility at the subject property, currently Southern Crescent Rehab & Retirement Co., Inc. as per current public tax records, may rent dwelling units.
13. Community facilities, recreational areas, access gate(s), if any, public space(s), and open space(s) shall be maintained by the existing, and all subsequent, owners/operators of the existing rehabilitation center and/or assisted living facility at the subject property, currently Southern Crescent Rehab & Retirement Co., Inc., as per current public tax records.
14. A traffic impact study (TIS) shall be required before the approval of the first development permit. At a minimum, the developer/owner's engineer shall provide an Intersection Control Evaluation Study to GDOT of the site's existing access per GDOT's requirements. The developer/owner shall be responsible to provide all of the indicated improvements as required by the ULDC.
15. The dwelling units shall be limited to condominium units.
16. The dwelling units shall be limited to units with two (2) or three (3) bedrooms. Each dwelling unit shall have a minimum of two (2) full bathrooms.
17. The dwelling units shall have a minimum of 1,600 square feet with a running minimum average of 1,800 square feet.
18. The dwelling units shall be Craftsman style as approved by the Planning & Zoning Department and shall have a minimum 3' high water table consisting of brick or similar.
19. Each permitted home in the development shall be compatible with existing homes, as determined by the Planning & Zoning Department. The Planning & Zoning Department is authorized to require the heated square footage to be increased and/or the architectural style to be modified in instances where incompatibility is determined.
20. Each dwelling unit shall have a garage. Garages shall be setback a minimum of 12" from the front dripline of the home. Greater than 50% of the dwelling units shall have a two-car garage. The balance shall have one and a half car garages. Garages shall have crown molding complimentary to the exterior of the homes.
21. Four (4) of the dwelling units shall be reserved for those leaving the care of assisted living, needing transitional living arrangements. No permits of any kind shall be approved unless all four of these transitional living units are included.

22. All stormwater management facilities shall be environmentally friendly, landscaped, enclosed with a minimum 4' high fence, and be included in the common area to be maintained by the HOA. No detention pond shall be located on private property.
23. An HOA shall be required and shall maintain the common areas and building exteriors.
24. Interior sidewalks shall be a minimum of 8' wide. Exterior sidewalks along Highway 42 shall be a minimum of 10' wide.

BE IT SO RESOLVED THIS 20TH DAY OF JULY, 2021.

Re: Water and Sewer Services - Availability

Proposed Development: **Age Restricted Residential Development**
Property Information: **2125 Hwy 42 North Parcel Nos. 071-01034012, 071-01034014**
LLs 31, 32, 33 & 34; District 7; 42.0+/- acres
Zoning: **PUD**
Sewer Basin: **Walnut Creek**
Watershed Basin: **Big Cotton Indian**

TO WHOM IT MAY CONCERN:

You have requested that this Authority provide you with information concerning the present availability of water and sewer services to the above-described property. This letter is being provided for informational purposes only and will not act to reserve water capacity to you or the property and will not create any liability to the Authority. The information contained in this letter will remain in effect for a period of **365** days from the date of this letter unless subsequently notified in writing by the Authority. The information provided herein is based upon the above-stated zoning of the property. Any deviation in zoning that would increase density or usage above that evaluated by the Authority will automatically void the information provided herein and will require a separate re-evaluation by this Authority.

Water service is available to the property described above. A fire flow test calculated in the area revealed the following data:

Static:	108	psi
Residual:	98	psi
Flow	1570	gpm
Calculated Flow @ 20 psi:	5080	gpm

As shown, these results are above the minimum adopted standards of 20 psi residual pressure at 1000 gpm for said proposed conditional use as established by the Henry County Board of Commissioners.

Sewage treatment and sewer line capacity are available for the property. ***Please note that the proposed layout for the project is in conflict with an existing 8-inch sewer line; consequently, the sewer will have to be relocated at the developer's expense. Additionally, an easement will be required to access the sewer line from Hwy 42 North.***

The Authority provides water and sewer services where capacity is available on a first-come, first served basis. Each customer, developer, and property owner must also comply with the rules, regulations, and ordinances of the Authority.

The Authority will reevaluate the availability of water and sewer services to the property at the time that the development plans are submitted. If there are any additional requirements, or if water or sewer capacity is not available, you will be notified in writing.

This letter was prepared with information submitted to HCWA on a Conceptual Site Plan dated 05/17/22 prepared by Moore Bass Consulting, Inc.

TO WHOM IT MAY CONCERN:

You have requested that this Authority provide you with information concerning the present availability of water and sewer services to the above-described property. This letter is being provided for informational purposes only and will not act to reserve water capacity to you or the property and will not create any liability to the Authority. The information contained in this letter will remain in effect for a period of **365** days from the date of this letter unless subsequently notified in writing by the Authority. The information provided herein is based upon the above-stated zoning of the property. Any deviation in zoning that would increase density or usage above that evaluated by the Authority will automatically void the information provided herein and will require a separate re-evaluation by this Authority.

Water service is available to the property described above. A fire flow test calculated in the area revealed the following data:

Static:	108	psi
Residual:	98	psi
Flow	1570	gpm
Calculated Flow @ 20 psi:	5080	gpm

As shown, these results are above the minimum adopted standards of 20 psi residual pressure at 1000 gpm for said proposed conditional use as established by the Henry County Board of Commissioners.

Sewage treatment and sewer line capacity are available for the property. *Please note that the proposed layout for the project is in conflict with an existing 8-inch sewer line; consequently, the sewer will have to be relocated at the developer's expense. Additionally, an easement will be required to access the sewer line from Hwy 42 North.*

The Authority provides water and sewer services where capacity is available on a first-come, first served basis. Each customer, developer, and property owner must also comply with the rules, regulations, and ordinances of the Authority.

The Authority will reevaluate the availability of water and sewer services to the property at the time that the development plans are submitted. If there are any additional requirements, or if water or sewer capacity is not available, you will be notified in writing.

This letter was prepared with information submitted to HCWA on a Conceptual Site Plan dated 05/17/22 prepared by Moore Bass Consulting, Inc.

I. LETTER OF INTENT

S3 Capital Investments, LLC (the “Applicant”) is requesting annexation into the Incorporated City of Stockbridge for the rezoning of 19.995 acres of land, which is further described as parcels 071-01034012 and 071-01034014. The subject property is currently developed under the unincorporated Henry County Office and Institutional and Mixed-Use zoning districts. The applicant is requesting to be rezoned from OI and MU there will be a companion Future Land Use Map Amendment request to change the land use designation from Light Industrial to Low-Density Vertical Mixed-Use.

The subject property will be adjacent to the Southern Crescent Rehabilitation Center, which is zoned Mixed Use. S3 Capital Investments’ proposal includes 52 detached housing units and 124 attached units for an age-restricted independent living community. The applicant is requesting the petition of zoning and other applicable zoning actions to obtain approval and acceptance of the annexation of both parcels of land which will include a total of 276 total units, which 100 of the units will be provided as part of the South Crescent tract that is designated for assisted living, nursing and rehabilitation.

TOTAL								276 TOTAL I.L. UNITS

The applicant currently has a list of conditions for the proposed development that is being revised for the transition into the City of Stockbridge. This document is currently being drafted and will be submitted as an attachment to this application.

Battle Law

This document is submitted as a Statement of Intent with regard to this Application, preservation of the Applicant's constitutional rights, and an application of the criteria provided in the Steinberg Act to provide a rigorous analysis of the proposed rezoning and land use amendment. A surveyed plat and conceptual site plan of the Subject Property has been filed contemporaneously with the Application, along with other required materials.

II. REVIEW CRITERIA FOR JUSTIFICATION

- A. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property** The zoning proposal will permit a use that is suitable in view of the use and development of the adjacent and nearby property.

The Subject Property is abutted by a residential neighborhood to the south. There are commercial-zoned parcels adjacent east and north of the property. The Southern Crescent site is currently developed and the adjacent tract, which is referenced as tract 2 is currently undeveloped with heavy tree coverage throughout the parcel. The proposed use appears to be suitable in view of the surrounding properties as a residential addition to the Highway 42 corridor.

- B. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property** The land use amendment and zoning proposal will not adversely affect the existing use or usability of adjacent or nearby property.

The proposed land use amendment and zoning proposal will allow the Applicant to improve upon the area surrounding the Subject Property by bringing high-quality architectural design, road access through the Subject Property, jobs, and senior services that are in high demand according to the regional market.

Battle Law

- C. Whether the property will be affected by the zoning proposal has a reasonable economic use as currently zoned.**

The Subject Property does have a reasonable economic use as zoned. However, the land-use amendment and zoning proposal will not change this fact. There is an annexation request which will allow this development to be added to the City of Stockbridge. We believe that this project would best benefit from the regulations established within the City of Stockbridge Zoning Ordinance.

- D. Whether the zoning proposal will result in a use that will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities or schools.**

The land use amendment and zoning proposal will not result in a use which will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities or schools.

- E. Whether the zoning proposal is in conformity with the policy and intent of the land-use plan. The land use amendment and zoning proposal is in conformity with the policy and intent of the land-use plan.**

The zoning proposal is appropriate for the simultaneous land use amendment because the assigned land use designation is not compatible as industrial land use. The proposed site will be residential with a low-density yield. The requested change appears to be more conforming with the area given that there are existing residential land uses adjacent to the subject property.

- F. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.**

Battle Law

The Applicant is aware of the conditions that were assigned by Henry County's staff. The applicant intends to carry some of the conditions with some alterations in the language that will best suit the development regulations and policies of the City of Stockbridge.

III. NOTICE OF CONSTITUTIONAL ALLEGATIONS AND PRESERVATION OF APPLICANT'S CONSTITUTIONAL RIGHTS

The portions of the City of Stockbridge Ordinance, facially and as applied to the Subject Property, which restricts or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the City of Stockbridge Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in

Battle Law

violation of the due process and equal protection rights guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal by the City Council/ Commission to amend the land use and/or rezone the Subject Property to the classification as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious, and unreasonable manner between the Applicant and owners of similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any rezoning of the Property subject to conditions which are different from the conditions requested by the Applicant to the extent such different conditions would have the effect of further restricting the Applicant's utilization of the property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Subject Property to an unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth herein above.

A refusal to allow the land use amendment and/or rezoning in questions would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution.

A refusal to allow the land use amendment and/or rezoning in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A Section 36-66/1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted. The existing land use designation and/or zoning classification on the Subject Property is unconstitutional as it applies to the Subject Property.

Battle Law

This notice is being given to comply with the provisions of O.C.G.A. Section 36-11-1 to afford the City an opportunity to revise the Property to a constitutional classification. If action is not taken by the City to rectify this unconstitutional land use designation and/or zoning classification within a reasonable time, the Applicant is hereby placing the City on notice that it may elect to file a claim in the Superior Court of Henry County demanding just and adequate compensation under Georgia law for the taking of the Subject Property, diminution of value of the Subject Property, attorney's fees and other damages arising out of the unlawful deprivation of the Applicant's property rights.

The portions of the City of Stockbridge Ordinance, facially and as applied to the Subject Property, which restricts or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the City of Stockbridge Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

Battle Law

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in violation of the due process and equal protection rights guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal to allow the special land use permit in question would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution

IV. Conclusion

Thank you for your consideration for this project. The applicant is more than willing to provide any additional documents and supporting details. For the foregoing reasons, the Applicant respectfully requests that the simultaneous Annexation, Land Use Amendment, and Rezoning application at issue be approved. The Applicant also invites and welcomes any comments from Staff or other officials of the City of Stockbridge so that such recommendations or input might be incorporated as conditions of approval of this Application.

This 1st day of June 2022.

Respectfully submitted,

ITEM/PROJECT/EVENT:

Consider a Rezoning request (RZ-2022-03) by CKC Commercial Properties, LLC, represented by Battle Law, P.C., to rezone property at 3884 Walt Stephens Road from 'RR' (Rural Residential) to 'OI' (Office-Institutional) to allow for a children's speech therapy facility in the existing building. The applicant submitted a companion application, VR-2022-02, to request the granting of three variances for the property. The Planning Commission recommended Approval With Conditions of RZ-2022-03 at its 8/25/22 meeting, conditioned upon the simultaneous approval of the applicant's three requested variances in VR-2022-02.

BACKGROUND INFORMATION:

The subject property is part of the Parkway Mixed-Use Overlay District (PMU) and its future land use designation is 'Public-Institutional'. The property was annexed into the City in 2016. It was previously used by a church (Anointed Prayers of Faith) and by a Masonic lodge.

Development Information

- Total Square Footage of Building: 2,475 square feet
- Number of Parking Spaces: 10 parking spaces

Staff Analysis (Section 9.2.1 C of Unified Development Code)

1. **Consistency with the Comprehensive Plan**: Consistent with the current Comprehensive Plan (Public/Institutional)
2. **Ability to Carry Out Purpose of Zoning Code**: Meet all the requirements of the minimum development standards of the O-I zoning districts
3. **Positive Effects On Area**: Location of the proposed speech therapy facility will benefit Red Oak Elementary School since it will help students who have difficulties with speech therapy
4. **Physical Suitability of Site**: Suitable for the proposed rezoning with approved variances. Site is a non-conforming lot.
5. **Impacts on Adjacent Property Owners**: Small increase in vehicular traffic
6. **Impacts on Water and Sewer Infrastructure**: Water services are provided to the subject property from Henry County Water and Sewerage Authority
7. **Impacts on Traffic and Transportation**: Minimal impact on the adjacent thoroughfares and pedestrian and vehicular traffic
8. **Merits of Request in Relation to Other Consideration**: Provide children with speech therapy assistance
9. **Ability of Site To Be Developed as it is Currently Zoned**: Subject property can be developed since it is zoned RR (Rural Residential District)

Staff Recommendation

Staff recommends approval with conditions for the proposed rezoning from RR (Rural Residential District) to O-I (Office-Institutional District) with the following conditions:

- Variance approval to reduce the minimum lot width from 125 to 96.37 feet.
- Variance approval to reduce the eastern section of the property from 50 feet to 0 feet.
- Variance approval to reduce the western section of the property from 50 feet to 0 feet.

V. Analysis

Project Description

The applicant intends to rezone 0.964 +/- acres of 3884 Walt Stephens Road from RR (Rural Residential District) to O-I (Office-Institutional District) for the purpose of utilizing the existing structure as a speech therapy facility. The requested O-I will allow the owner to use the subject property for the speech therapy facility. The Future Land Use Map of the Comprehensive Plan designates the subject property for Public/Institutional land uses.

Staff Analysis

The applicant requests a **Rezoning** under the City of Stockbridge Unified Development Code Section (**Sec. 9.2.1 C**):

The Planning Commission and the City Council shall consider the following standards in considering any proposal that would result in a change to the text or map of this UDC, giving due weight or priority to those factors that are appropriate to the circumstances of each proposal.

ANALYSIS OF REQUEST

1. Consistency with the Comprehensive Plan.

The request to rezone the subject property to O-I is consistent with the current Comprehensive Plan, which designates the property for Public/Institutional land uses.

2. The relation that the proposed rezoning amendment bears to the purpose of the overall zoning scheme with due consideration given to whether or not the proposed change will help carry out the purposes of the City of Stockbridge Zoning Code.

The proposed rezoning does meet all the requirements of the minimum development standards of the O-I zoning districts. In addition, the proposed speech therapy facility is consistent with the zoning character of the area and with the Future Land Use Map designation of Public Institutional land uses.

3. Potential positive effects of the rezoning amendment on the character of the proposed zoning district, a particular piece of property, neighborhood, a particular area, or community.

Rezoning the subject property will not affect the character of Walt Stephens Road. The location of the proposed speech therapy facility will benefit Red Oak Elementary School since it will help students who have difficulties with speech therapy.

4. The physical conditions of the site relative to its capability to be developed as requested, including topography, drainage, access, and size and shape of the property.

The site appears to be suitable for the proposed rezoning with approved variances. Issues regarding buffering, topography, drainage, access, size, and shape of the property will be addressed. Variance requests will be heard concurrently with the rezoning. The applicant will be seeking approval for the following variances: 1. A variance to reduce the minimum lot width from 125 to 96.37 feet; 2. A variance to reduce the eastern section of the property from 50 feet to 0 feet; and 3. A pending variance to reduce the western section of the property from 50 feet to 0 feet.

5. The impact upon adjacent property owners should the request be granted.

The possible impact upon the adjacent property owners, should the property be rezoned, is a small increase in vehicular traffic.

6. The potential impact of the rezoning on City infrastructure including water and sewage system.

A letter from the Henry County Water and Sewerage Authority, dated July 5, 2022, states the County and water services are provided to the subject property.

7. The impact of the proposed amendment on adjacent thoroughfares and pedestrian and vehicular circulation and traffic volumes.

The subject property has frontage on Walt Stephens Road, which is a local road. Therefore, there should be minimal impact on the adjacent thoroughfares and pedestrian and vehicular traffic.

8. The merits of the requested change in zoning relative to any other guidelines and policies for development, which the Planning Commission and City Council may use in furthering the objective of the comprehensive plan.

Approval of the request would allow the applicant to utilize the existing building as a speech therapy facility.

9. The ability of the subject land to be developed as it is presently zoned.

The subject property can be developed since it is zoned RR (Rural Residential District).

Summary of Impacts/Concerns

Fire Marshall	N/A
Henry County Water and Sewer	A letter from the Henry County Water and Sewerage Authority, dated July 5, 2022, states the County and water services are provided to the subject property.

VI. STAFF RECOMMENDATION

Staff recommends approval with conditions for the proposed rezoning from RR (Rural Residential District) to O-I (Office-Institutional District) with the following conditions:

- Variance approval to reduce the minimum lot width from 125 to 96.37 feet.
- Variance approval to reduce the eastern section of the property from 50 feet to 0 feet.
- Variance approval to reduce the western section of the property from 50 feet to 0 feet.

I. LETTER OF INTENT

CKC Commercial Properties, LLC. (the "Applicant") is seeking to develop on +/- 0.963 acres of land being Tax Parcel No. 031-02012000 having frontage on 3884 Walt Stephens Road (the "Subject Property") with a medical office that will serve as a children's speech therapy facility. The Applicant is seeking a Rezoning of the Subject Property from RR to O-I.

This document serves as a statement of intent, analysis of the criteria under the Steinberg Act, and contains notice of constitutional allegations as a reservation of the Applicant's rights.

II. STEINBERG CRITERIA/REZONING CRITERIA

Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property;

The zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property. The Subject Property is immediately abutted by a school and a cemetery. In the immediate area there are churches, a senior living facility, and a commercial building that has various retail and restaurant uses. The zoning proposal requests a rezoning to O-I to allow for a medical office that will be used for a children's speech therapy facility. This use fits in nicely with the nearby institutional uses and would not be adverse to the immediately surrounding uses. In fact, with the school being next door, a speech therapy facility that services children could be a great help to any children attending the school who are in need of speech therapy. This zoning proposal would create a convenient option for those students. Therefore, the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.

Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;

The zoning proposal will not adversely affect the existing use or usability of adjacent or nearby property. The Subject Property was used as a church, but is not vacant. The zoning proposal to allow for the children's speech therapy facility will in no way adversely affect the surrounding properties. Furthermore, the intensity of use that is brought on by this proposed zoning is likely to be much lower than the old use as a church. As a church, the Subject Property likely attracted a great deal of visitors several times a week. As a children's speech therapy facility, that number will almost certainly be less. A children's speech therapy facility will not generate any noise or add students to any schools. The impact from this use will be minimal. Therefore, the zoning proposal will not adversely affect the existing use or usability of adjacent or nearby property.

Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned;

Battle Law

The property to be affected by the zoning proposal does not have a reasonable economic use as currently zoned. The current RR zoning allows for some residential uses (single-family, boarding house/group home, manufactured homes, and senior adult housing), public/institutional uses (cemeteries, government buildings, school, and emergency response and public safety facilities), and communications/utilities uses (wireless telecommunications, utility substation, and a water tower). None of these uses truly qualify as a “reasonable economic use” because the Subject Property is already developed in such a way that precludes these uses (save for the public/institutional uses). Rezoning the Subject Property in accordance with this zoning proposal would allow the current building to be remodeled and used for the children’s speech therapy facility. The uses outlined above would almost certainly require that the existing building be torn down and the Subject Property redeveloped. Therefore, the property to be affected by the zoning proposal does not have a reasonable economic use as currently zoned.

Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools;

The zoning proposal will not result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools. The zoning proposal will draw very little traffic, much less than what the church drew. The transportation facilities and streets will be minimally impacted by this proposal. The zoning proposal will have very little impact on utilities as well given that the building on the Subject Property is serviced by septic tank rather than sewer. Lastly, no schools will be adversely affected by the zoning proposal. Therefore, the zoning proposal will not result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.

Whether the zoning proposal is in conformity with the policy and intent of the land use plan; and

The zoning proposal is in conformity with the policy and intent of the land use plan.

Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

The Applicant is not aware of any other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

III. CONCLUSION

For the foregoing reasons, the Applicant hereby requests that the application for a Rezoning from/to RR to O-I be approved. The Applicant welcomes any questions and feedback from the planning staff.

IV. NOTICE OF CONSTITUTIONAL ALLEGATIONS AND PRESERVATION OF CONSTITUTIONAL RIGHTS

The portions of the City of Stockbridge Zoning Ordinance, facially and as applied to the Subject Property, which restrict or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the City of Stockbridge Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in violation of the due process and equal protection rights guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal by the City of Stockbridge City Council to amend the land use and/or rezone the Subject Property to the classification as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious and unreasonable manner between the Applicant and owners of similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any REZONING of the Property subject to conditions which are different from the conditions requested by the Applicant, to the extent such different conditions would have the effect of further restricting Applicant's utilization of the property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Subject Property to an unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth hereinabove.

Battle Law

A refusal to allow the land use amendment and/or Rezoning in questions would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution.

A refusal to allow the land use amendment and/or Rezoning in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A Section 36-66/1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted.

The existing land use designation and/or zoning classification on the Subject Property is unconstitutional as it applies to the Subject Property. This notice is being given to comply with the provisions of O.C.G.A. Section 36-11-1 to afford the County an opportunity to revise the Property to a constitutional classification. If action is not taken by the County to rectify this unconstitutional land use designation and/or zoning classification within a reasonable time, the Applicant is hereby placing the County on notice that it may elect to file a claim in the Superior Court of Fulton County demanding just and adequate compensation under Georgia law for the taking of the Subject Property, diminution of value of the Subject Property, attorney's fees and other damages arising out of the unlawful deprivation of the Applicant's property rights.

PLAT CERTIFICATION:

The field data, completed on 3/2/22, upon which this plat is based has a closure precision of one foot in 68,112 feet and an angular error of 02" per angle point and was unadjusted. This plat has been calculated for closure and is found to be accurate within one foot in 250,244 feet.

The linear and angular measurements shown on this plat were obtained using a Leica TS 16 Instrument.

THE UTILITIES SHOWN ON THIS PLAT WERE TAKEN FROM INFORMATION AVAILABLE AT THE TIME OF THE SURVEY AND MAY OR MAY NOT BE ACCURATE AS TO THE EXTENT AND OR LOCATION OF SAID UTILITIES.

THIS SURVEYOR DOES NOT GUARANTEE THAT ALL EASEMENTS WHICH MAY AFFECT THIS PROPERTY ARE SHOWN.

The term "Certification" as used in Rule "180-6-.09(2) and (3)" and relating to professional engineering or land surveying services, as defined in O.C.G.A. 43-15-2(6) and (11), shall mean a signed statement based upon facts and knowledge known to the registrant and is not a guarantee or warranty, either expressed or implied.

This survey complies with both the rules of the Georgia Board of Registration for Professional Engineers and Land Surveyors and the Official Code of Georgia Annotated (OCGA) 15-6-67, in that where a conflict exists between those two sets of specifications, the requirements of law prevail.

This plat is a retracement of an existing parcel or parcels of land and does not subdivide or create a new parcel or make any changes to any real property boundaries. The recording information of the documents, maps, plats, or other instruments which created the parcel or parcels are stated hereon. RECORDATION OF THIS PLAT DOES NOT IMPLY APPROVAL OF ANY LOCAL JURISDICTION, AVAILABILITY OF PERMITS, COMPLIANCE WITH LOCAL REGULATIONS OR REQUIREMENTS, OR SUITABILITY FOR ANY USE OR PURPOSE OF THE LAND. Furthermore, the undersigned land surveyor certifies that this plat complies with the minimum technical standards for property surveys in Georgia as set forth in the rules and regulations of the Georgia Board of Registration for Professional Engineers and Land Surveyors and as set forth in O.C.G.A. section 15-6-67.

I. LETTER OF INTENT

CKC Commercial Properties, LLC. (the “Applicant”) is seeking to develop on +/- 0.963 acres of land being Tax Parcel No. 031-02012000 having frontage on 3884 Walt Stephens Road (the “Subject Property”) with a medical office that will serve as a children’s speech therapy facility. The Applicant is seeking a Rezoning of the Subject Property from RR to O-I.

This document serves as a statement of intent, analysis of the criteria under the Steinberg Act, and contains notice of constitutional allegations as a reservation of the Applicant’s rights.

II. STEINBERG CRITERIA/REZONING CRITERIA

Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property;

The zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property. The Subject Property is immediately abutted by a school and a cemetery. In the immediate area there are churches, a senior living facility, and a commercial building that has various retail and restaurant uses. The zoning proposal requests a rezoning to O-I to allow for a medical office that will be used for a children’s speech therapy facility. This use fits in nicely with the nearby institutional uses and would not be adverse to the immediately surrounding uses. In fact, with the school being next door, a speech therapy facility that services children could be a great help to any children attending the school who are in need of speech therapy. This zoning proposal would create a convenient option for those students. Therefore, the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.

Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;

The zoning proposal will not adversely affect the existing use or usability of adjacent or nearby property. The Subject Property was used as a church, but is not vacant. The zoning proposal to allow for the children’s speech therapy facility will in no way adversely affect the surrounding properties. Furthermore, the intensity of use that is brought on by this proposed zoning is likely to be much lower than the old use as a church. As a church, the Subject Property likely attracted a great deal of visitors several times a week. As a children’s speech therapy facility, that number will almost certainly be less. A children’s speech therapy facility will not generate any noise or add students to any schools. The impact from this use will be minimal. Therefore, the zoning proposal will not adversely affect the existing use or usability of adjacent or nearby property.

Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned;

Battle Law

The property to be affected by the zoning proposal does not have a reasonable economic use as currently zoned. The current RR zoning allows for some residential uses (single-family, boarding house/group home, manufactured homes, and senior adult housing), public/institutional uses (cemeteries, government buildings, school, and emergency response and public safety facilities), and communications/utilities uses (wireless telecommunications, utility substation, and a water tower). None of these uses truly qualify as a “reasonable economic use” because the Subject Property is already developed in such a way that precludes these uses (save for the public/institutional uses). Rezoning the Subject Property in accordance with this zoning proposal would allow the current building to be remodeled and used for the children’s speech therapy facility. The uses outlined above would almost certainly require that the existing building be torn down and the Subject Property redeveloped. Therefore, the property to be affected by the zoning proposal does not have a reasonable economic use as currently zoned.

Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools;

The zoning proposal will not result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools. The zoning proposal will draw very little traffic, much less than what the church drew. The transportation facilities and streets will be minimally impacted by this proposal. The zoning proposal will have very little impact on utilities as well given that the building on the Subject Property is serviced by septic tank rather than sewer. Lastly, no schools will be adversely affected by the zoning proposal. Therefore, the zoning proposal will not result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.

Whether the zoning proposal is in conformity with the policy and intent of the land use plan; and

The zoning proposal is in conformity with the policy and intent of the land use plan.

Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

The Applicant is not aware of any other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

III. CONCLUSION

For the foregoing reasons, the Applicant hereby requests that the application for a Rezoning from/to RR to O-I be approved. The Applicant welcomes any questions and feedback from the planning staff.

IV. NOTICE OF CONSTITUTIONAL ALLEGATIONS AND PRESERVATION OF CONSTITUTIONAL RIGHTS

The portions of the City of Stockbridge Zoning Ordinance, facially and as applied to the Subject Property, which restrict or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the City of Stockbridge Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in violation of the due process and equal protection rights guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal by the City of Stockbridge City Council to amend the land use and/or rezone the Subject Property to the classification as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious and unreasonable manner between the Applicant and owners of similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any REZONING of the Property subject to conditions which are different from the conditions requested by the Applicant, to the extent such different conditions would have the effect of further restricting Applicant's utilization of the property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Subject Property to an unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth hereinabove.

Battle Law

A refusal to allow the land use amendment and/or Rezoning in questions would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution.

A refusal to allow the land use amendment and/or Rezoning in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A Section 36-66/1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted.

The existing land use designation and/or zoning classification on the Subject Property is unconstitutional as it applies to the Subject Property. This notice is being given to comply with the provisions of O.C.G.A. Section 36-11-1 to afford the County an opportunity to revise the Property to a constitutional classification. If action is not taken by the County to rectify this unconstitutional land use designation and/or zoning classification within a reasonable time, the Applicant is hereby placing the County on notice that it may elect to file a claim in the Superior Court of Fulton County demanding just and adequate compensation under Georgia law for the taking of the Subject Property, diminution of value of the Subject Property, attorney's fees and other damages arising out of the unlawful deprivation of the Applicant's property rights.

ITEM/PROJECT/EVENT:

Consider a Variance request (VR-2022-02) by CKC Commercial Properties, LLC, represented by Battle Law, P.C., for three variances at 3884 Walt Stephens Road to allow for a children's speech therapy facility in the existing building. The requested variances are: 1) reduce the required minimum lot width of 125 feet to 96.37 feet; 2) reduce the buffer on the eastern side from 50 feet to 0 feet; and 3) reduce the buffer on the western side of the property from 50 feet to 0 feet. The Planning Commission recommended the Approval of VR-2022-02 at its 8/25/22 meeting.

BACKGROUND INFORMATION:

The applicant submitted a companion application, RZ-2022-03, to request the rezoning of the property from 'RR' (Rural Residential) to 'OI' (Office-Institutional). The subject property is part of the Parkway Mixed-Use Overlay District (PMU) and its future land use designation is 'Public-Institutional'. The property was annexed into the City in 2016. It was previously used by a church (Anointed Prayers of Faith) and by a Masonic lodge.

Staff Analysis (Sec. 10.1 of the Unified Development Code)

1. Extraordinary and exceptional circumstances pertaining to the particular piece of property exist due to its size, shape, or topography that are not found on other properties in the same zoning district – Analysis: The subject property is 96.37 feet on the front section of the property and is 100 feet in the rear section of the property. As a result, the property is very narrow, which would not meet the minimum lot requirements of the Unified Development Code.
2. Literal interpretation of provisions of this Unified Development Code would deprive applicant of rights commonly enjoyed by owners of other properties located in the same zoning district – Analysis: A literal interpretation of the provisions of the Unified Development Code would deprive the applicant of the rights commonly enjoyed by owners of other properties located in the same zoning district. Since the building is not 125 feet wide as required by the development standards of the O-I, the applicant may not use it for institutional purposes.
3. Granting the variance requested will not confer upon the property owner any special privileges that are denied to other owners of property in the same zoning district – Analysis: Granting the variance requested will not confer upon the property owner any special privileges that are denied to other owners of property in the same zoning district.
4. The variance will be consistent with the purposes and intent of this Unified Development Code, will be compatible with uses on neighboring properties, and will serve the public welfare – Analysis: By approving the requested variances, the subject property will be used to assist children who need speech therapy assistance.

Staff Analysis (Sec. 10.1 of the Unified Development Code) – cont.

5. **The extraordinary circumstances are not the result of actions by the applicant.**
Analysis - The extraordinary circumstances are not the result of actions by the applicant. The building was developed as a church and a masonic lodge with a narrow front section. In addition, the site is a non-conforming lot.
6. **The variance is the minimum relief that will allow the legal use of the land, building or structure.** Analysis - Requested variances are the minimum relief that will allow the legal use of the land, building or structure.
7. **The variance is not a request to permit a use of land, buildings or structures that is prohibited in the same zoning district.** Analysis: The proposed rezoning to OI will allow the owner to use the subject property for the speech therapy facility. Therefore, the variance is not a request to permit a use of land, buildings or structures that is prohibited in the same zoning district.

Staff Recommendation

Staff recommends approval of the three requested variances

V. Analysis

Project Description

The applicant is requesting three variances from the development regulations in the Unified Development Code. These variances are as follows:

4. Reduce the required minimum lot width of 125 feet to 96.37 feet.
5. Reduce the buffer on the eastern side from 50 feet to 0 feet.
6. Reduce the buffer on the western side of the property from 50 feet to 0 feet.

A rezoning request is running concurrently with the variance request to rezone the subject property from RR (Rural Residential District) to OI (Office-Institutional District).

Staff Analysis

The applicant requests a **variance** under the City of Stockbridge Unified Development Code Section **(Sec. 10.1)**. **The Planning Commission and the City Council shall consider the weight and merits of each of the following factors before granting variances:**

Section 10.1.1.1

- A. A variance may be granted where owing to special conditions, a literal enforcement of the provisions of this Unified Development Code will result in an individual case result in unnecessary hardship.
- B. A variance shall observe the spirit of this Unified Development Code, secure public safety and welfare, and deliver substantial justice.
- C. The existence of a nonconforming use on adjacent or nearby property shall not constitute a justification for granting a variance.
- D. The Planning Commission shall make recommendations to the Mayor and City Council which shall have the authority to render a decision on a variance application pursuant to the public notice and hearing requirements set forth in Chapter 9.
- E. A variance may not be granted for a use specifically prohibited by the Unified Development Code. A variance is intended to compensate for a shortfall in a dimension of property that would prevent the property from complying with a site design standard. Variances may only be granted following a review of an application against the **criteria** listed below:

ANALYSIS OF REQUEST (Section 10.1.2)

A variance may be granted only upon a finding by the Mayor and City Council that all the following conditions are met.

1. **Extraordinary and exceptional circumstances pertaining to the particular piece of property exist due to its size, shape, or topography that are not found on other properties in the same zoning district;**
 - There are extraordinary and exceptional circumstances pertaining due to the size of the subject property that are not found on the other properties in the same zoning district. The

subject property is 96.37 feet on the front section of the property and is 100 feet in the rear section of the property. As a result, the property is very narrow, which would not meet the minimum lot requirements of the Unified Development Code.

The reduction of the buffers would allow any necessary development of the subject property.

2. A literal interpretation of the provisions of this Unified Development Code would deprive the applicant of rights commonly enjoyed by owners of other properties located in the same zoning district;

- A literal interpretation of the provisions of the Unified Development Code would deprive the applicant of the rights commonly enjoyed by owners of other properties located in the same zoning district. Since the building is not 125 feet wide as required by the development standards of the O-I, the applicant may not use it for institutional purposes. By reducing the minimum lot width from 125 to 96.37 feet, the applicant could utilize the existing building for institutional purposes.

3. Granting the variance requested will not confer upon the property owner any special privileges that are denied to other owners of property in the same zoning district;

- Granting the variance requested will not confer upon the property owner any special privileges that are denied to other owners of property in the same zoning district.

4. The variance will be consistent with the purposes and intent of this Unified Development Code, will be compatible with uses on neighboring properties, and will serve the public welfare;

- The requested variances will be consistent with the purposes and intent of the Unified Development Code, and will be compatible with uses on neighboring properties, and will serve the public welfare. By approving the requested variances, the subject property will be used to assist children who need speech therapy assistance.

5. The extraordinary circumstances are not the result of actions by the applicant;

- The extraordinary circumstances are not the result of actions by the applicant. The building was developed as a church and a masonic lodge with a narrow front section.

6. The variance is the minimum relief that will allow the legal use of the land, building or structure.

- The requested variances are the minimum relief that will allow the legal use of the land, building or structure.

7. The variance is not a request to permit a use of land, buildings or structures that is prohibited in the same zoning district.

- The proposed rezoning to OI will allow the owner to use the subject property for the speech

therapy facility. Therefore, the variance is not a request to permit a use of land, buildings or structures that is prohibited in the same zoning district.

Summary of Impacts/Concerns

Fire Marshal	N/A
Henry County Water and Sewer	A letter from the Henry County Water and Sewerage Authority, dated July 5, 2022, states the County and water services are provided to the subject property.

VI. STAFF RECOMMENDATION

Staff recommends approval of the three requested variances.

PLAT CERTIFICATION:

The field data, completed on 3/2/22, upon which this plat is based has a closure precision of one foot in 68,112 feet and an angular error of 02" per angle point and was unadjusted. This plat has been calculated for closure and is found to be accurate within one foot in 250,244 feet.
The linear and angular measurements shown on this plat were obtained using a Leica TS 16 Instrument.

THE UTILITIES SHOWN ON THIS PLAT WERE TAKEN FROM INFORMATION AVAILABLE AT THE TIME OF THE SURVEY AND MAY OR MAY NOT BE ACCURATE AS TO THE EXTENT AND OR LOCATION OF SAID UTILITIES.

THIS SURVEYOR DOES NOT GUARANTEE THAT ALL EASEMENTS WHICH MAY AFFECT THIS PROPERTY ARE SHOWN.

The term "Certification" as used in Rule "180-6-.09(2) and (3)" and relating to professional engineering or land surveying services, as defined in O.C.G.A. 43-15-2(6) and (11), shall mean a signed statement based upon facts and knowledge known to the registrant and is not a guarantee or warranty, either expressed or implied.

This survey complies with both the rules of the Georgia Board of Registration for Professional Engineers and Land Surveyors and the Official Code of Georgia Annotated (OCGA) 15-6-67, in that where a conflict exists between those two sets of specifications, the requirements of law prevail.

This plat is a retracement of an existing parcel or parcels of land and does not subdivide or create a new parcel or make any changes to any real property boundaries. The recording information of the documents, maps, plats, or other instruments which created the parcel or parcels are stated hereon. RECORDATION OF THIS PLAT DOES NOT IMPLY APPROVAL OF ANY LOCAL JURISDICTION, AVAILABILITY OF PERMITS, COMPLIANCE WITH LOCAL REGULATIONS OR REQUIREMENTS, OR SUITABILITY FOR ANY USE OR PURPOSE OF THE LAND. Furthermore, the undersigned land surveyor certifies that this plat complies with the minimum technical standards for property surveys in Georgia as set forth in the rules and regulations of the Georgia Board of Registration for Professional Engineers and Land Surveyors and as set forth in O.C.G.A. section 15-6-67.

I. LETTER OF INTENT

CKC Commercial Properties, LLC. (the “Applicant”) is seeking to develop on +/- 0.963 acres of land being Tax Parcel No. 031-02012000 having frontage on 3884 Walt Stephens Road (the “Subject Property”) with a medical office that will serve as a children’s speech therapy facility. The Applicant is seeking a Variance on the Subject Property to reduce the minimum lot width under OI from 125 feet to 96.37 feet; a variance to reduce the buffer on the East side of the property from fifty (50) feet to zero (0) feet; and a variance to reduce the buffer on the West side of the property from fifty (50) feet to zero (0) feet.

This document serves as a statement of intent, analysis of the criteria under the City of Stockbridge Unified Development Code, and contains notice of constitutional allegations as a reservation of the Applicant’s rights.

II. VARIANCE CRITERIA

Extraordinary and exceptional circumstances pertaining to the particular piece of property in question exist due to its size, shape, or topography that are not found on other properties in the same zoning district;

There are extraordinary and exceptional circumstances pertaining to the particular piece of property in questions due to its size that are not found on other properties in the same zoning district. The Subject Property is just under one acre and has 96.37 feet of frontage on Walt Stephens Road. The rear of the property is one hundred (100) feet wide. Additionally, this parcel is already developed with a building that was once used as a church (i.e. for an institutional use). This parcel’s narrowness keeps it from conforming with the minimum lot width under the City’s Unified Development Code, despite the fact that it was used for institutional purposes in the past. This variance proposal would remedy that by reducing the minimum lot width and allow the parcel to be used for institutional uses.

The required buffers on this parcel are put in place by the Unified Development Code. The Code requires fifty (50) feet of buffer when a parcel zoned OI abuts a parcel zoned RR. In this case, because the Subject Property is only one hundred (100) feet wide, the two buffers would meet right in the center of the Subject Property and prohibit any development on the Subject Property. The Subject Property is already developed, though. So, the variance requests to reduce the buffers to zero (0) feet would remedy an existing issue. No further development of the Subject Property would be required to introduce the new use. Only remodeling of the existing building.

A literal interpretation of the provisions of the Unified Development Code would deprive the applicant of rights commonly enjoyed by owners of other properties located in the same zoning district;

district. Other property owners in the OI district enjoy the right to use their property for institutional uses and to develop their property with buildings where institutional uses can take place. In this case, the building already exists on the Subject Parcel, but it may not be used for institutional uses because the lot upon which the building sits is not 125 feet wide. By reducing this minimum lot width, the Applicant will be able to enjoy the same rights as other property owners with property zoned OI.

Additionally, the buffers on the Subject Property totally prohibit any development of the Subject Property. The buffers are so large and the Subject Property so narrow that the buffers entirely encompass the Subject Property. However, the Subject Property is already developed. So, reducing the buffers to zero (0) feet will remedy the existing nonconformity.

Granting the variance requested will not confer upon the property owner any special privileges that are denied to other owners of property in the same zoning district;

Granting any of the variances requested will not confer upon the property owner any special privileges that are denied to other owners of property in the same zoning district. Rather, granting all of the requested variances is the only way the Subject Property may be used for institutional uses at all.

The variance will be consistent with the purposes and intent of this Unified Development Code, will be compatible with uses on neighboring properties, and will serve the public welfare;

The variances requested will be consistent with the purposes and intent of the Unified Development Code and will be compatible with uses on neighboring properties, and will serve the public welfare. The Subject Property abuts a cemetery and a school. Granting all three of the variances requested will simply allow for the Subject Property to be used for the proposed children's speech therapy facility. This use will in no way adversely impact the abutting uses. Development of the Subject Property is not at all required, only remodeling of the existing building. Thus, there will be no external changes to the Subject Property save for a new parking lot. Granting the variances herein will allow for a currently unused plot of land to once again be used. In this case, the Subject Property will be used to benefit children who suffer from speech impediments. Thus, the variance requests will be consistent with the purposes and intent of the Unified Development Code and will be compatible with uses on neighboring properties, and will serve the public welfare.

The extraordinary circumstances are not the result of actions of the applicant;

While the OI regulations apply to the Subject Property due to a rezoning of the Applicant, the extraordinary circumstances that affect the Subject Property are not the result of actions of the applicant. The extraordinary circumstances in this case are not the zoning regulations, but the narrowness of the Subject Property. The OI zoning regulations interact with the narrowness of the Subject Property to create an undue burden upon the property owner that calls for relief via the requested variances. The narrowness of the Subject Property is in no way connected with the actions of the Applicant.

Battle Law

The variance is the minimum relief that will allow the legal use of the land, building or structure; and

The variance is the minimum relief that will allow the legal use of the land, building or structure

The variance is not a request to permit a use of land, buildings or structures that is prohibited in the same zoning district.

The medical office use that will allow for the children's speech therapy facility is a permitted use in the OI district. Therefore, the variance is not a request to permit a use of land, buildings or structures that is prohibited in the same zoning district.

III. CONCLUSION

For the foregoing reasons, the Applicant hereby requests that the application for Variances to reduce the minimum lot width under OI from 125 feet to 96.37 feet; to reduce the buffer on the East side of the property from fifty (50) feet to zero (0) feet; and to reduce the buffer on the West side of the property from fifty (50) feet to zero (0) feet be approved. The Applicant welcomes any questions and feedback from the planning staff.

IV. NOTICE OF CONSTITUTIONAL ALLEGATIONS AND PRESERVATION OF CONSTITUTIONAL RIGHTS

The portions of the City of Stockbridge Zoning Ordinance, facially and as applied to the Subject Property, which restrict or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the City of Stockbridge Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment

Battle Law

to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in violation of the due process and equal protection rights guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal by the City of Stockbridge City Council to grant the variance on the Subject Property as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious and unreasonable manner between the Applicant and owners of similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any approval of a variance of the Property subject to conditions which are different from the conditions requested by the Applicant, to the extent such different conditions would have the effect of further restricting Applicant's utilization of the property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Subject Property to an unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth hereinabove.

A refusal to grant the Variances in questions would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution.

A refusal grant the Variances in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A Section 36-66/1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted.

The existing land use designation and/or zoning classification on the Subject Property is unconstitutional as it applies to the Subject Property. This notice is being given to comply with the provisions of O.C.G.A. Section 36-11-1 to afford the County an opportunity to revise the Property to a constitutional classification. If action is not taken by the County to rectify this unconstitutional land use designation and/or zoning classification within a reasonable time, the Applicant is hereby placing the County on notice that it may elect to file a claim in the Superior Court of Fulton County demanding just and adequate compensation under Georgia law for the taking of the Subject Property, diminution of value of the Subject Property, attorney's fees and other damages arising out of the unlawful deprivation of the Applicant's property rights.

The proposed site would contain the twelve (12) parcels that are listed below. The first two parcels below are owned by Everything VM, LLC. The remaining ten parcels are owned by Martin Gonzalez; they are zoned 'C-2' (General Commercial); and they are part of the Pinnacle Pointe @ Spivey Subdivision. (It is important to note that Parcel #012-02013000 with 2.00 +/- acres at 3020 Highway 138 West, owned by Southern Crescent Financial Group, would NOT be included within the site).

1. **Parcel #012-02013001**—Located on the south side of Highway 138 West / Lake Spivey Parkway, across from Glen Devon Road. Owned by Everything VM, LLC. Contains 14.01 +/- acres. Zoned 'RR' (Rural Residential).
2. **Parcel #012-02009051**—Located on Spivey Road, south of Tributary Parkway. Contains 7.40 +/- acres. Zoned 'SR' (Suburban Residential).
3. **Parcel #012D01001000**—Located at 1225 Highway 138 West, west of Tributary Parkway. Contains 1.444 +/- acres. Zoned 'C-2' (General Commercial).
4. **Parcel #012D01012000**—Located at the southeast corner of Tributary Parkway and Berkeley Drive. Contains 0.501 +/- acres. Zoned 'C-2' (General Commercial).

PURPOSE

Applicant's Request – Consider a Comprehensive Plan Amendment application by Highway 138 Spivey Road Land Assemblage, LLC, represented by Randy Stamey, to change the future land use designations of certain property from 'Low-Density Vertical Mixed-Use' to 'High Density Residential' to allow for a mixed-residential development with 318 apartments and 50 townhomes.

The property has frontage on Highway 138 West (Lake Spivey Parkway), Spivey Road, Berkeley Drive, Starr Circle, and Tributary Parkway. It contains 26.5 +/-total acres within twelve (12) parcels, as are listed below, in Land Lot 42 of District 12, within the Stockbridge City Limits.

The applicant has also applied for a Rezoning via RZ-2022-04 (from RR, SR, and C-2 to PUD) and a Recombination via RC-2022-01. The developer would be Tellus Partners, LLC.

BACKGROUND INFORMATION

CATEGORY	FINDINGS
Proposed Development	Mixed-residential project, including 318 apartments and 50 townhomes.
Site Address	Includes multiple addresses and parcel numbers.
Parcel Identification	Subject property includes 12 parcels, per the list above.
Parcel Acreage	26.5 +/- total acres within 12 parcels.
Applicant	Highway 138 Spivey Road Land Assemblage, LLC
Owner	Three owners – Everything VM, LLC; Martin Gonzalez; Martin Bonea
Current County Zoning	N/A
Current City Zoning	Varies by parcel, per the list above.
County Land Use Designation	N/A
City Land Use Designation	Low-Density Vertical Mixed-Use.
Current Use	Vacant land.
Surrounding Land Uses	~ <u>North</u>—Glen Devon Subdivision off Glen Devon Road (County); vacant shopping center (Spivey Commons) at 1175 Highway 138 West; vacant land. ~ <u>South</u>—Spivey Ridge Subdivision off Spivey Ridge Circle (County). ~ <u>East</u>—Baileys Estaes Subdivision off Spivey Glen Drive (City), and Spivey Glen Subdivision off Spivey Glen Drive (County).

ADDITIONAL FINDINGS OF FACT

- 1.** The applicant submitted three topographical surveys of the project area. They show that the property is traversed, from west to east, by the Reeves Creek Tributary and its associated floodplain.
- 2.** The property also contains a 25-foot “undisturbed State waters stream buffer” and a 20-foot sanitary sewer easement in the same area.

PROJECT DESCRIPTION

- 1. Proposed Apartment Complex --** This would be built in the southwest corner of the site, with its entrance off Highway 138 West / Lake Spivey Parkway from Tributary Parkway, which is currently a dead-end street. The apartment Leasing Center, along with a swimming pool, would be located directly in front of Lake Spivey Parkway, at 1225 Highway 138 West (currently Parcel #012D01001000, which has 1.444 +/- acres), at the west side of Tributary Parkway. A Leasing Center would be provided with a mail center, a maintenance office, and 500 parking spaces (1.58 spaces per unit).
- 2. Proposed Townhome Community --** This would be built at the northeast corner of the site, with entrances off Berkeley Drive and Starr Circle, which both lead to Spivey Road. An “Amenity Area” is shown as part of the townhome community, and a Dog Park would be located nearby.
- 3. Other Facilities --** A large Dog Park would be located to the north of the apartment complex. A trash dumpster would be located on a stub street off Tributary Parkway, and a large “stormwater management” area would be located beyond that. A new bridge would be built across or under Tributary Parkway, just south of the street’s intersection with Berkeley Drive.

ANALYSIS OF REQUEST, PAGE ONE

A. Consistency with the Comprehensive Plan. The proposed development is not consistent with the Comprehensive Plan's future land use designation of 'Low-Density Vertical Mixed-Use' for the subject property. The existing designation calls for low-rise buildings with commercial uses on the ground floor and residential uses on the upper floors, whereas the applicant is proposing to build a purely residential development with apartments and townhomes. The applicant has requested a Comprehensive Plan amendment via CP-2022-03 to change the property's land use designation to 'High-Density Residential', which would allow the proposed residential densities.

B. Relation to the Zoning of the Property. The applicant does not wish to develop the types of uses which the 'Low-Density Vertical Mixed-Use' future land use designation calls for, as was stated above. To allow for the proposed development, the applicant has therefore requested the rezoning of all twelve (12) parcels, via RZ-2022-04, to PUD. The PUD district is like the old 'PTD' (Planned Town Development) district, which is allowed under High-Density Residential.

Currently, Parcel #012-02013001 with 14.01 acres is zoned 'RR' (Rural Residential), Parcel #012-02009051 with 7.40 +/- acres is zoned 'SR' (Suburban Residential), and the remaining ten parcels are all zoned 'C-2' (General Commercial). The development of Parcel #012-02013001 with RR-type uses is unlikely due to the parcel's frontage on Highway 138 North. Although the development of commercial uses on the ten parcels which are zoned 'C-2' might seem reasonable, the fact that the Spivey Commons retail center at 1175 Highway 138 West has remained vacant for many years suggests that there is no current market for additional retail uses in this area.

ANALYSIS OF REQUEST, PAGE TWO

But there is no need to change the property's land use designation unless the property is rezoned to PUD via RZ-2022-04, and the existing twelve parcels are officially combined via RC-2022-01. Therefore, any approval of CP-2022-03 must be contingent upon the simultaneous approval of RZ-2022-04 and the simultaneous or subsequent approval of RC-2022-01.

C. Suitability of the Site's Location. || The proposed 'High-Density Residential' land use designation for the subject property is reasonable due to the property's frontage on Highway 138 West, which is a State highway, where higher densities are appropriate.

D. Maintaining the Current Land Use Designation.

Due to the subject property's frontage on Highway 138 West, which is a State highway, it is unlikely that the property would be developed with the types of uses which are called for by the existing Low-Density Vertical Mixed-Use designation.

STAFF RECOMMENDATION

STAFF RECOMMENDATION

This Staff Report has demonstrated that the requested Comprehensive Plan Amendment via CP-2022-03 would be necessary and desirable for the subject property in conjunction with the requested rezoning of the property via RZ-202204 to allow for the proposed mixed residential development. As a result, Planning and Zoning Staff recommends **APPROVAL** of CP-2022-03.

SUBJECT: Comprehensive Plan Amendment Case #CP-2022-03 for Twelve (12) Parcels for the Proposed “Tranquil Trails” Residential Development

I. PURPOSE

Consider a Comprehensive Plan Amendment application by Highway 138 Spivey Road Land Assemblage, LLC, represented by Randy Stamey, to change the future land use designations of certain property from ‘Low-Density Vertical Mixed-Use’ to ‘High Density Residential’ to allow for a mixed-residential development with 318 apartments and 50 townhomes. The property has frontage on Highway 138 West (Lake Spivey Parkway), Spivey Road, Berkeley Drive, Starr Circle, and Tributary Parkway. It contains 26.5 +/- total acres within twelve (12) parcels, as are listed below, in Land Lot 42 of District 12, within the Stockbridge City Limits. The applicant has also applied for a Rezoning via RZ-2022-04 (from RR, SR, and C-2 to PUD) and a Recombination via RC-2022-01. The developer would be Tellus Partners, LLC.

II. COMPONENT PARCELS

The proposed site would contain the twelve (12) parcels that are listed below. The first two parcels below are owned by Everything VM, LLC. The remaining ten parcels are owned by Martin Gonzalez; they are zoned ‘C-2’ (General Commercial); and they are part of the Pinnacle Pointe @ Spivey Subdivision. (It is important to note that Parcel #012-02013000 with 2.00 +/- acres at 3020 Highway 138 West, owned by Southern Crescent Financial Group, would NOT be included within the site).

1. Parcel #012-02013001—Located on the south side of Highway 138 West / Lake Spivey Parkway, across from Glen Devon Road. Owned by Everything VM, LLC. Contains 14.01 +/- acres. Zoned ‘RR’ (Rural Residential).
2. Parcel #012-02009051—Located on Spivey Road, south of Tributary Parkway. Contains 7.40 +/- acres. Zoned ‘SR’ (Suburban Residential).

3. Parcel #012D01001000—Located at 1225 Highway 138 West, west of Tributary Parkway. Contains 1.444 +/- acres. Zoned 'C-2' (General Commercial).
4. Parcel #012D01012000—Located at the southeast corner of Tributary Parkway and Berkeley Drive. Contains 0.501 +/- acres. Zoned 'C-2' (General Commercial).
5. Parcel #012D01004000—Located at 1300 Berkeley Drive, between Tributary Parkway and Star Creek Drive. Contains 0.475 +/- acres. Zoned 'C-2' (General Commercial).
6. Parcel #012D01005000—Located at the southwest corner of Berkeley Drive and Star Creek Drive. Contains 0.375 +/- acres. Zoned 'C-2' (General Commercial).
7. Parcel #012D01006000—Located at 1660 Starr Circle. Contains 1.018 +/- acres. Zoned 'C-2' (General Commercial).
8. Parcel #012D01007000-- Located at 1600 Starr Circle. Contains 0.731 +/- acres. Zoned 'C-2' (General Commercial).
9. Parcel #012D01008000—Located at 1650 Starr Circle. Contains 0.968 +/- acres. Zoned 'C-2' (General Commercial).
10. Parcel #012D01009000—Located at 1700 Starr Circle. Contains 1.21 acres. Zoned 'C-2' (General Commercial).
11. Parcel #012D01010000-- Located at the northwest corner of Berkeley Drive and Spivey Road. Contains 0.737 +/- acres. Zoned 'C-2' (General Commercial).
12. Parcel #012D01011000—Located at the southeast corner of Berkeley Drive and Starr Circle. Contains 0.799 +/- acres. Zoned 'C-2' (General Commercial).

III. BACKGROUND

Proposed Development	Mixed-residential project, including 318 apartments and 50 townhomes.
Site Address	Includes multiple addresses and parcel numbers.
Parcel Identification	Subject property includes 12 parcels, per the list above.
Parcel Acreage	26.5 +/- total acres within 12 parcels.
Applicant	Highway 138 Spivey Road Land Assemblage, LLC
Owner	Three owners – Everything VM, LLC; Martin Gonzalez; Martin Bonea
Current County Zoning	N/A
Current City Zoning	Varies by parcel, per the list above.
County Land Use Designation	N/A
City Land Use Designation	Low-Density Vertical Mixed-Use
Current Use	Vacant land
Surrounding Land Uses	• <u>North</u> — Glen Devon Subdivision off Glen Devon Road (County); vacant

	shopping center (Spivey Commons) at 1175 Highway 138 West; vacant land. • <u>South</u> — Spivey Ridge Subdivision off Spivey Ridge Circle (County). • <u>West</u> — Vacant land. • <u>East</u> — Baileys Estates Subdivision off Spivey Glen Drive (City), and Spivey Glen Subdivision off Spivey Glen Drive (County).

IV. FINDINGS OF FACT

- The applicant submitted three topographical surveys of the project area. They show that the property is traversed, from west to east, by the Reeves Creek Tributary and its associated floodplain.
- The property also contains a 25-foot “undisturbed State waters stream buffer” and a 20-foot sanitary sewer easement in the same area.

IV. PROJECT DESCRIPTION

The applicant’s submitted Conceptual Site Plan shows that the proposed apartment complex would be built in the southwest corner of the site, with its entrance off Highway 138 West / Lake Spivey Parkway from Tributary Parkway, which is currently a dead-end street. The apartment Leasing Center, along with a swimming pool, would be located directly in front of Lake Spivey Parkway, at 1225 Highway 138 West (currently Parcel #012D01001000, which has 1.444 +/- acres), at the west side of Tributary Parkway. A new bridge would be built across or under Tributary Parkway, just south of the street’s intersection with Berkeley Drive. A trash dumpster would be located on a stub street off Tributary Parkway, and a large “stormwater management” would be located beyond that.

The proposed townhome community would be built at the northeast corner of the site, with entrances off Berkeley Drive and Starr Circle, which both lead to Spivey Road. The apartment complex would feature a Leasing Office with mail center, a maintenance office, a trash center, and 500 parking spaces (1.58 spaces per unit). A large Dog Park would be located to the north of the apartment complex. An “Amenity Area” is shown as part of the townhome community, and a small Dog Park would be located nearby.

V. ANALYSIS OF REQUEST

A. Consistency with the Comprehensive Plan. The proposed development is not consistent with the Comprehensive Plan's future land use designation of 'Low-Density Vertical Mixed-Use' for the subject property. The existing designation calls for low-rise buildings with commercial uses on the ground floor and residential uses on the upper floors, whereas the applicant is proposing to build a purely residential development with apartments and townhomes. The applicant has requested a Comprehensive Plan amendment via CP-2022-03 to change the property's land use designation to 'High-Density Residential', which would allow the proposed residential densities.

B. Relation to the Zoning of the Property. The applicant does not wish to develop the types of uses which the 'Low-Density Vertical Mixed-Use' future land use designation calls for, as was stated above. To allow for the proposed development, the applicant has therefore requested the rezoning of all twelve (12) parcels, via RZ-2022-04, to PUD. The PUD district is like the old 'PTD' (Planned Town Development) district, which is allowed under High-Density Residential.

Currently, Parcel #012-02013001 with 14.01 acres is zoned 'RR' (Rural Residential), Parcel #012-02009051 with 7.40 +/- acres is zoned 'SR' (Suburban Residential), and the remaining ten parcels are all zoned 'C-2' (General Commercial). The development of Parcel #012-02013001 with RR-type uses is unlikely due to the parcel's frontage on Highway 138 North. Although the development of commercial uses on the ten parcels which are zoned 'C-2' might seem reasonable, the fact that the Spivey Commons retail center at 1175 Highway 138 West has remained vacant for many years suggests that there is no current market for additional retail uses in this area.

But there is no need to change the property's land use designation unless the property is rezoned to PUD via RZ-2022-04, and the existing twelve parcels are officially combined via RC-2022-01. Therefore, any approval of CP-2022-03 must be contingent upon the simultaneous approval of RZ-2022-04 and the simultaneous or subsequent approval of RC-2022-01.

C. Suitability of the Site's Location. The proposed 'High-Density Residential' land use designation for the subject property is reasonable due to the property's frontage on Highway 138 West, which is a State highway, where higher densities are appropriate.

D. Maintaining the Current Land Use Designation.

Due to the subject property's frontage on Highway 138 West, which is a State highway, it is unlikely that the property would be developed with the types of uses which are called for by the existing Low-Density Vertical Mixed-Use designation.

STAFF RECOMMENDATION

This Staff Report has demonstrated that the requested Comprehensive Plan Amendment via CP-2022-03 would be necessary and desirable for the subject property in conjunction with the requested rezoning of the property via RZ-202204 to allow for the proposed mixed residential development. As a result, Planning and Zoning Staff recommends **APPROVAL** of CP-2022-03.

Zoning Submittal Letter of Intent:

Tellus Partners, LLC would like to develop the ~21-acre site located off of Highway 138 by building a 318-unit apartment complex, developing a community of 50 town homes, that we feel will perpetuate the economic growth Stockbridge has seen over the last decade. Tellus has extensive experience in the town center, mixed use, multifamily development market and has completed over \$500 million in total project costs between Georgia and Florida.

With considerable population, housing, and business needs in Stockbridge as well as the communities surrounding it, Tellus is excited about the opportunity to continue these trends by delivering a high-quality product to a budding market.

Providing Quality Water and Quality Services to Our Community

April 18, 2022

Jonathon Schrader

Chamblee, GA 30341

Re: Tributary Parkway Court & Berkeley Drive
Parcels 012-02013001 and 012-02009051
Henry County, Georgia

Mr. Schrader,

Clayton County Water Authority owns and maintains a 12-inch water main running along the north side of Highway 138 and an 8-inch water main running along the east side of Tributary Parkway Court at the above referenced property. The Authority has a treatment capacity of 42 MGD and is currently producing an average of 25.36 MGD.

The Authority also owns and maintains an 8-inch sanitary sewer main running within parcel 012-02013001 and an 8-inch sanitary sewer main running along the north side of a Reeves Creek tributary approximately 60 feet north of parcel 102-02009051. The sanitary sewer main may need to be extended, may require easements and would be at the developer's expense. Wastewater generated from your development would receive treatment at the WB Casey WRF. This facility has a design capacity of 24.0 MGD and is presently treating 14.77 MGD. The Authority does not guarantee capacity of plant or infrastructure; capacity is allocated only when purchased.

The data contained in this letter is for informational purposes only indicating location and size. A survey, by the above referenced property owner, may be necessary to determine connection to the Authority's system.

Potable water and sanitary sewer service to this property is subject to the existing and future policies of the Clayton County Water Authority, State EPD and Federal EPA.

Sincerely,

A handwritten signature in blue ink that reads "Keith Watkins".

ITEM/PROJECT/EVENT:

Consider a Rezoning request (RZ-2022-04) by Highway 138 Spivey Road Land Assemblage, LLC to rezone property from 'RR' (Rural Residential), 'SR' (Suburban Residential), and 'C-2 (General Commercial) to 'PUD' (Planned Unit Development) to allow for a mixed residential development with 318 apartments and 50 townhomes. The property contains 26.5 +/- total acres and it is located off Highway 138 West/Lake Spivey Parkway, Spivey Road, and Tributary Parkway.

BACKGROUND INFORMATION:

Companion Applications: 1) Comprehensive Plan Amendment Case #CP-2022-03 to change the future land use designations of the 12 parcels from 'Low-Density Vertical Mixed-Use' to 'High-Density Residential'. 2) Recombination Plat Case #RC-2022-01 to combine all 12 parcels to form one parcel.

Staff Recommendation — Conditional Approval, with four zoning conditions.

Planning Commission Recommendation — Denial (8/25/22 meeting).

VICINITY MAP (N.T.S.)

PROPOSED DEVELOPMENT INFORMATION

- Proposed apartment complex would be built in the southwest corner of the site, with its entrance off Highway 138 West / Lake Spivey Parkway from Tributary Parkway (dead-end street)
- Apartment Leasing Center, along with a swimming pool, would be located directly in front of Lake Spivey Parkway, at 1225 Highway 138 West (currently Parcel #012D01001000, which has 1.444 +/- acres), at the west side of Tributary Parkway.
- New bridge would be built across or under Tributary Parkway, just south of the street's intersection with Berkeley Drive.
- Trash dumpster would be located on a stub street off Tributary Parkway
- Large "stormwater management" would be located as well.

PROPOSED DEVELOPMENT INFORMATION (CONT.)

- Proposed townhome community would be built at the northeast corner of the site, with entrances off Berkeley Drive and Starr Circle, which both lead to Spivey Road
- Apartment complex would feature the following:
 - Maintenance office
 - Leasing Office with mail center
 - Trash center
 - 500 parking spaces (1.58 spaces per unit)
- Large Dog Park would be located to the north of the apartment complex
- “Amenity Area” shown as part of the townhome community
- Small Dog Park would be located nearby

Staff Analysis (Section 9.2.1 C of Unified Development Code)

- **Consistency with the Comprehensive Plan:** Not consistent with the Low Density Vertical Mixed Use Land Use designation; density for the proposed project is 13.88 units per acre which places the proposed project into the High-Density Residential Land Use category which allows a density rate between 6-16 units per acre. Rezoning proposal is accompanied by a Comprehensive Plan Amendment to change the land use to High- Density Residential and that would allow for the proposed development.
- **Ability to Carry Out Purpose of Zoning Code:** Meets one of the main goals of the Purpose and Intent of the City of Stockbridge's Unified Development Code, and that is "Encourage the most appropriate and best use of land, buildings, and other structures throughout the City." This proposal in its current form meets the purpose and intent of the UDC.
- **Positive Effects On Area:** Proposed mixed-use development project is expected to have a positive effect on the subject property and the surrounding area. Currently, the City is predominantly single-family residential, and this proposed project can further serve to diversify the housing stock within the City limits.
- **Physical Suitability of Site:** Traversed from west to east by the Reeves Creek Tributary and its associated floodplain; Property also contains a 25-foot "undisturbed State waters stream buffer" and a 20-foot sanitary sewer easement in the same area; physically challenged due to the presence of Reeves Creek Tributary and its surrounding floodplain areas; Developer plans to protect these areas by leaving them in their natural state. The remainder of the development site is relatively level and suitable for the proposed mixed-use development.

Staff Analysis (Section 9.2.1 C of Unified Development Code) – cont.

- **Impacts on Adjacent Property Owners:** Would represent an acceptable land use transition between the existing single-family detached housing to the east and west and the existing retail uses along Highway 138 West and Mount Zion Parkway.
- **Impacts on Water and Sewer Infrastructure:** A twelve (12)-inch water main is present along the north side of Highway 138 West and an 8-inch water main running along the east side of the Tributary Parkway Court at the above referenced property. Authority also owns and maintains along the north side of Reeves Creek tributary approximately 60 feet north of parcel 102-02009051. The sanitary sewer main might need to be extended to serve the proposed development. This may require easements and it would be at the owner's or developer's expense.
- **Impacts on Traffic and Transportation:** No trip generation memorandum has been submitted; since the proposed project will be located along a state roadway, Georgia DOT and Henry County DOT would be required to be consulted in the design of the transportation network of the development including ingress and egress. The developer will consult with officials from Georgia DOT and Henry County DOT to determine whether any road improvements or traffic signalization adjustments need to be made along Highway 138 West.
- **Merits of Request in Relation to Other Consideration:** Proposed development would meet purposes of the Parkway Mixed-Use Overlay District.
- **Ability of Site To Be Developed as it is Currently Zoned:** Subject properties as currently zoned are less likely to be developed than a high density mix use development due to the subject properties' location on a State highway, Reeves Creek Tributary, and other environmental challenges, and the lack of pedestrian access for customers who are seeking neighborhood retail products and services. Subject property in its current form is less likely to be developed. Only a high-density development would be feasible at the location because of the challenges associated with the land. A mix use development with commercial uses would be more realistic, and the proposed rezoning of the subject property to PUD would allow for such action.

STAFF RECOMMENDATION

Planning and Zoning Staff recommends **APPROVAL WITH CONDITIONS**

Conditional Approval:

1. The project will be developed in conformance with the City of Stockbridge Unified Development Code and all other City Code sections regarding site development standards and requirements.
2. The approval of Case #CP-2022-02 to change the property's future land use designation from Low-Density Vertical to High-Density Residential shall occur simultaneously with the approval of Case #RZ-2022-04 for the rezoning of the property.
3. The rezoning shall not be finalized until the applicant receives approval from Mayor/Council for Recombination Plat Case #RC-2022-01 and this shall not be finalized until a new plat is officially recorded by the Henry County Super Court (Real Estate Records Division).
4. Regarding the Issuance of Land Disturbance and Building Permits – No land disturbance or building permit shall be issued for the subject property until the applicant has had the new recombination plat officially recorded and has submitted a copy of the recorded plat to the Community Development Department.

III. BACKGROUND

Proposed Development	Mixed-residential project, including 318 apartments and 50 townhomes.
Site Address	Includes multiple addresses and parcel numbers.
Parcel Identification	Subject property includes 12 parcels, per the list above.
Parcel Acreage	26.5 +/- total acres within 12 parcels.
Applicant	Highway 138 Spivey Road Land Assemblage, LLC
Owner	Three owners – Everything VM, LLC; Martin Gonzalez; Martin Bonea
Current County Zoning	N/A
Current City Zoning	Varies by parcel, per the list above.
County Land Use Designation	N/A
City Land Use Designation	Low-Density Vertical Mixed-Use
Current Use	Vacant land
Surrounding Land Uses	• <u>North</u> — Glen Devon Subdivision off Glen Devon Road (County); vacant shopping center (Spivey Commons) at 1175 Highway 138 West; vacant land. • <u>South</u> —Spivey Ridge Subdivision off Spivey Ridge Circle (County). • <u>West</u> — Vacant land. • <u>East</u>— Baileys Estates Subdivision off Spivey Glen Drive (City), and Spivey Glen Subdivision off Spivey Glen Drive (County).

III. FINDINGS OF FACT

- Topographical surveys that were submitted by the applicant show that the property is traversed, from west to east, by the Reeves Creek Tributary and its associated floodplain. The property also contains a 25-foot “undisturbed State waters stream buffer” and a 20-foot sanitary sewer easement in the same area.
- The applicant has also applied for a Rezoning via RZ-2022-04 (from RR, SR, and C-2 to PUD) and a Recombination via RC-2022-01. The developer would be Tellus Partners, LLC.

IV. PROJECT NARRATIVE

The applicant’s submitted Conceptual Site Plan shows that the proposed apartment complex would be built in the southwest corner of the site, with its entrance off Highway 138 West / Lake Spivey Parkway from Tributary Parkway, which is currently a dead-end street. The apartment Leasing Center, along with a swimming pool, would be located directly in front of Lake Spivey Parkway, at 1225 Highway 138 West (currently Parcel #012D01001000, which has 1.444 +/- acres), at the west side of Tributary Parkway. A new bridge would be built across or under Tributary Parkway, just south of the street’s intersection with Berkeley Drive. A trash dumpster would be located on a stub street off Tributary Parkway, and a large “stormwater management” would be located beyond that.

The proposed townhome community would be built at the northeast corner of the site, with entrances off Berkeley Drive and Starr Circle, which both lead to Spivey Road. The apartment complex would feature a Leasing Office with mail center, a maintenance office, a trash center, and 500 parking spaces (1.58 spaces per unit). A large Dog Park would be located to the north of the apartment complex. An “Amenity Area” is shown as part of the townhome community, and a small Dog Park would be located nearby.

V. Analysis

Project Description

The applicant proposes a mixed-use development consisting of 318 apartment units and 50 townhomes and to be determined commercial components.

Staff Analysis

The applicant requests a **Rezoning** under the City of Stockbridge Unified Development Code Section (Sec. 9.2.1 C):

The Planning Commission and the City Council shall consider the following standards in considering any proposal that would result in a change to the text or map of this UDC, giving due weight or priority to those factors that are appropriate to the circumstances of each proposal.

ANALYSIS OF REQUEST

1. Consistency with the Comprehensive Plan.

The applicant's proposal in its current form is not consistent with the Low Density Vertical Mixed Use Land Use designation. The density for the proposed project is 13.88 units per acre which places the proposed project into the High-Density Residential Land Use category which allows a density rate between 6-16 units per acre. This rezoning proposal is accompanied by a Comprehensive Plan Amendment to change the land use to High-Density Residential and that would allow for the proposed development.

2. The relation that the proposed rezoning amendment bears to the purpose of the overall zoning scheme with due consideration given to whether or not the proposed change will help carry out the purposes of the City of Stockbridge Zoning Code.

This proposed project meets one of the main goals of the Purpose and Intent of the City of Stockbridge's Unified Development Code, and that is "*Encourage the most appropriate and best use of land, buildings, and other structures throughout the City.*" This proposal in its current form meets the purpose and intent of the UDC. Also, the proposed project can serve as a catalyst for future commercial development in the City.

3. Potential positive effects of the rezoning amendment on the character of the proposed zoning district, a particular piece of property, neighborhood, a particular area, or community.

The proposed mixed-use development project is expected to have a positive effect on the subject property and the surrounding area. Currently, the City is predominantly single-family residential, and this proposed project can further serve to diversify the housing stock within the City limits.

4. The physical conditions of the site relative to its capability to be developed as requested, including topography, drainage, access, and size and shape of the property.

The property is traversed from west to east by the Reeves Creek Tributary and its associated floodplain. The property also contains a 25-foot "undisturbed State waters

stream buffer” and a 20-foot sanitary sewer easement in the same area. The subject property is physically challenged due to the presence of Reeves Creek Tributary and its surrounding floodplain areas. The developer plans to protect these areas by leaving them in their natural state. The remainder of the development site is relatively level and suitable for the proposed mixed-use development.

5. The impact upon adjacent property owners should the request be granted.

The proposed mixed residential development with townhomes and apartments would represent an acceptable land use transition between the existing single-family detached housing to the east and west and the existing retail uses along Highway 138 West and Mount Zion Parkway. The proposed project does not meet the threshold of a regional development review and, therefore, the impacts from the proposed development will be considered acceptable and considered a normal part of daily living in an urbanized area.

6. The potential impact of the rezoning on City infrastructure including water and sewage system.

The applicant has obtained a letter from the Clayton County Water Authority, dated April 18, 2022. It states that a twelve (12)-inch water main is present along the north side of Highway 138 West and an 8-inch water main running along the east side of the Tributary Parkway Court at the above referenced property. The Authority also owns and maintains along the north side of Reeves Creek tributary approximately 60 feet north of parcel 102-02009051. The sanitary sewer main might need to be extended to serve the proposed development. This may require easements and it would be at the owner’s or developer’s expense.

7. The impact of the proposed amendment on adjacent thoroughfares and pedestrian and vehicular circulation and traffic volumes.

No trip generation memorandum has been submitted. However, since the proposed project will be located along a state roadway, Georgia DOT and Henry County DOT would be required to be consulted in the design of the transportation network of the development including ingress and egress. The developer will consult with officials from Georgia DOT and Henry County DOT to determine whether any road improvements or traffic signalization adjustments need to be made along Highway 138 West.

Regarding access to the site, Section 4.5.1 of the UDC states that any improvements along major highways are subject to Georgia DOT approval. Further, Section 16.4(J) states that any developments which have an entrance onto a state highway must provide deceleration lanes, and that these must meet Georgia DOT’s design requirements. Internally, the streets would be 28 feet wide, from the back of the curb on one side of the street to the back of the curb on the other side of the street. This would meet the requirements of the Unified Development Code (UDC), and it would meet the specifications of the Stockbridge Fire Marshal. Sidewalks will be provided along all the internal streets. Sidewalks must be at least ten (10) feet wide along Highway 138 West. The Streetscape Design Standards of the UDC also specify that along a major highway, a building frontage zone, a pedestrian travel zone, and a fixtures/planting zone must all be provided. Internally, sidewalks must be at least eight (8) feet wide on commercial streets and at least five (5) feet wide on residential streets. The proposed development will have approximately 500 parking spaces for the 368-unit development at a rate of 1.58 spaces per unit.

8. The merits of the requested change in zoning relative to any other guidelines and policies for development, which the Planning Commission and City Council may use in furthering the objective of the comprehensive plan.

The proposed development would meet purposes of the Parkway Mixed-Use Overlay District. The project will feature a balanced mixture of residential densities and proposed commercial uses whereby residents can truly “live, work and play.” The proposed development can be a panacea for future economic development activity in the target area.

9. The ability of the subject land to be developed as it is presently zoned.

The subject properties as currently zoned are less likely to be developed than a high density mix use development due to the subject properties’ location on a State highway, Reeves Creek Tributary, and other environmental challenges, and the lack of pedestrian access for customers who are seeking neighborhood retail products and services. The subject property in its current form is less likely to be developed. Only a high-density development would be feasible at the location because of the challenges associated with the land. A mix use development with commercial uses would be more realistic, and the proposed rezoning of the subject property to PUD would allow for such action. The rezoning of the subject property to PUD would allow for flexibility in design and greater usage of the total site area than would the current zoning.

Summary of Impacts/Concerns

Code Compliance	N/A
Police Department	No comments
Fire Marshall	Mandated two means of ingress/egress
Henry County Water and Sewer	Acceptable water/sewer
Building	No Comments
Traffic	Will be addressed later during development phsase

VI. STAFF RECOMMENDATION

The Planning and Zoning Staff recommends APPROVAL WITH CONDITIONS for the proposed rezoning of the subject property from RR (Rural Residential), SR (Suburban Residential), and C-2 (General Commercial) to PUD (Planned Unit Development).

Conditional Approval:

1. The project will be developed in conformance with the City of Stockbridge Unified Development Code and all other City Code sections regarding site development standards and requirements.
2. The approval of Case #CP-2022-02 to change the property’s future land use designation from Low-Density Vertical to High-Density Residential shall occur simultaneously with the approval of Case #RZ-2022-04 for the rezoning of the property.
3. The rezoning shall not be finalized until the applicant receives approval from Mayor/Council for Recombination Plat Case #RC-2022-01 and this shall not be finalized until a new plat is officially recorded by the Henry County Super Court (Real Estate Records Division).

4. Regarding the Issuance of Land Disturbance and Building Permits – No land disturbance or building permit shall be issued for the subject property until the applicant has had the new recombination plat officially recorded and has submitted a copy of the recorded plat to the Community Development Department.

Re: Tributary Parkway Court & Berkeley Drive
Parcels 012-02013001 and 012-02009051
Henry County, Georgia

Mr. Schrader,

Clayton County Water Authority owns and maintains a 12-inch water main running along the north side of Highway 138 and an 8-inch water main running along the east side of Tributary Parkway Court at the above referenced property. The Authority has a treatment capacity of 42 MGD and is currently producing an average of 25.36 MGD.

The Authority also owns and maintains an 8-inch sanitary sewer main running within parcel 012-02013001 and an 8-inch sanitary sewer main running along the north side of a Reeves Creek tributary approximately 60 feet north of parcel 102-02009051. The sanitary sewer main may need to be extended, may require easements and would be at the developer's expense. Wastewater generated from your development would receive treatment at the WB Casey WRF. This facility has a design capacity of 24.0 MGD and is presently treating 14.77 MGD. The Authority does not guarantee capacity of plant or infrastructure; capacity is allocated only when purchased.

The data contained in this letter is for informational purposes only indicating location and size. A survey, by the above referenced property owner, may be necessary to determine connection to the Authority's system.

Potable water and sanitary sewer service to this property is subject to the existing and future policies of the Clayton County Water Authority, State EPD and Federal EPA.

Sincerely,

Keith Watkins

ITEM/PROJECT/EVENT:

Consider a Recombination Plat request (Case #RC-2022-01) by Highway 138 Spivey Road Land Assemblage, LLC to combine twelve (12) parcels to allow for a mixed residential development with 318 apartments and 50 townhomes. The property contains 26.5 +/- total acres and it is located off Highway 138 West/Lake Spivey Parkway, Spivey Road, and Tributary Parkway. The City's UDC requires recombination plat requests involving more than five (5) parcels to go through the public hearing process.

BACKGROUND INFORMATION:

Companion Applications: 1) Comprehensive Plan Amendment Case #CP-2022-03 to change the future land use designations of the 12 parcels from 'Low-Density Vertical Mixed-Use' to 'High-Density Residential'. 2) Rezoning Case #RZ-2022-04 to rezone property from 'RR' (Rural Residential), 'SR' (Suburban Residential), and 'C-2' (General Commercial) to 'PUD' (Planned Unit Development).

Staff Recommendation — Approval.

APPLICATION FOR BOARD, COMMITTEE OR COMMISSION APPOINTMENT

- Citizens provide a great insight and knowledge to City government. An avenue that the City of Stockbridge uses to get this insight is through the various Boards and Committees. The members of the Boards and Committees make decisions and submit recommendations to the City of Stockbridge Mayor and Council. Applicants complete a questionnaire that will assist the Mayor and Council in the review process in determining applicant eligibility requirements and qualifications for Board or Committee membership.

Questions to consider before applying for membership on a Board or Commission:

- Do I fully understand what this Board, Committee or Commission expects from me?
- Am I committed to the goals and mission of this Board, Committee or Commission?
- Can I afford the demands on my time, resources and energy?
- Will I attend meetings regularly, making them a priority for the duration of my appointment?
- Am I willing to perform a reasonable amount of work outside of regularly scheduled Board, Committee or Commission meetings and prepare for each meeting?
- Can I work effectively with the other members of the Board, Committee or Commission?
- Am I willing to participate in necessary Board, Committee or Commission training, education and development activities that will improve my effectiveness in my position?
- Am I willing to complete a Criminal Background Check upon selection?

STAFF RECOMMENDATION:

The Public Works Department is requesting approval to renew the competitive solicited Contract pursuant to Request For Proposal (RFP) Number 2021-0004, Landscape Maintenance Services with Yellowstone Landscape, LLC, and the City of Stockbridge, authorizing the Mayor to execute same; and authorizing the City Manager to execute all administrative and budgetary actions related to the Agreement.

The Landscape Maintenance Services scope of services to be performed comprises general grounds keeping, horticultural maintenance, irrigation and cleanup of landscape areas as designated in each service area and the list of locations and when necessary, repairs to vandalism, irrigation systems and replacement of plant materials. Services to be rendered include but are not limited to the following:

- Maintenance of turf and ground cover areas, mowing and edging.
- Removal of litter and debris from turf, planter beds, fence lines and street curbs.
- Pruning of trees and shrubs.
- Application of chemical agents for control of weeds, plant disease and insects that are harmful to plant growth and/or pedestrians.
- Monthly inspection and maintenance of irrigation systems by a licensed irrigator (provide evidence of such licensure).
- Replacement of plant material.

The Public Works Department has determined that Yellowstone Landscape – Southeast, LLC., is performing all work in accordance with the contract requirements and is providing quality city to the City.

The Public Works Department is requesting a contract renewal through September 30, 2023, and the Procurement renewal process of this contract was approved by the City Manager.

Section 3.30.227 - Renewals and extensions; The city council shall approve all renewals or term contract extensions: (A) to afford the city a continuous supply of items or services in the event of the termination or near termination of the award/contract and (B) where cost is greater than fifty thousand dollars (\$50,000.00); and when the original contract was approved by the city council.
